SELECTED THEMES IN AFRICAN POLITICAL STUDIES

POLITICAL CONFLICT AND STABILITY

Springer Against the background of a long and continuing record of political instability in Africa, this edited collection presents a multi-disciplinary approach to selected issues in African political studies. The contributions explore a range of political and conflict situations, discuss efforts to develop indigenous conflict resolution mechanisms and consider some of the key political and economic issues facing the continent. The specific country studies illuminate the diversity of the African continent and indicate the ways in which the political and socio-economic contexts of African states bear directly upon the ability of states to solve political and economic challenges. The volume seeks to present and promote novel analytical frameworks, conceptual approaches and empirical accounts of relevance to scholars working on Africa and to practitioners and policy makers in politics, governance and peace initiatives in Africa.

MISMATCH

HOW INCLUSION SHAPES DESIGN

MIT Press How inclusive methods can build elegant design solutions that work for all. Sometimes designed objects reject their users: a computer mouse that doesn't work for left-handed people, for example, or a touchscreen payment system that only works for people who read English phrases, have 20/20 vision, and use a credit card. Something as simple as color choices can render a product unusable for millions. These mismatches are the building blocks of exclusion. In Mismatch, Kat Holmes describes how design can lead to exclusion, and how design can also remedy exclusion. Inclusive design methods—designing objects with rather than for excluded users—can create elegant solutions that work well and benefit all. Holmes tells stories of pioneers of inclusive design, many of whom were drawn to work on inclusion because of their own experiences of exclusion. A gamer and designer who depends on voice recognition shows Holmes his “Wall of Exclusion,” which displays dozens of game controllers that require two hands to operate; an architect shares her firsthand knowledge of how design can fail communities, gleaned from growing up in Detroit's housing projects; an astronomer who began to lose her eyesight adapts a technique called “sonification” so she can “listen” to the stars. Designing for inclusion is not a feel-good sideline. Holmes shows how inclusion can be a source of innovation and growth, especially for digital technologies. It can be a catalyst for creativity and a boost for the bottom line as a customer base expands. And each time we remedy a mismatched interaction, we create an opportunity for more people to contribute to society in meaningful ways.

IZIGANEKO ZESIZWE

OCCASIONAL POEMS (1900-1943)

University of Kwazulu Natal Press Samuel Edward Krune Mqhayi (1875-1945) was the most prominent South African imbongi of his day, a Xhosa oral poet who declaimed his impromptu poetry on occasions of significance to his people. The author of numerous works of

poetry, fiction and non-fiction, biography, autobiography, and translation, Mqhayi's contributions to Xhosa-language newspapers remains unparalleled in scope and volume. This book reclaims and assembles a chronological sequence of Mqhayi's occasional poems, for the most part now unknown. Sixty poems celebrate significant events in the calendar, on occasions of national or international importance. They constitute Iziganeko zesizwe, a chronicle of the nation, between 1900 and 1943: poetic responses to events from the perspective of the greatest figure in Xhosa literature. Wars feature prominently in these occasional poems—the Boer War, the First World War, the invasion of Abyssinia, and the Second World War—as do political deputations to England, visits from British princes and the death of British kings, the appearance of Halley's Comet, and meetings with Ministers of State. Running through the collection is Mqhayi's proud and fierce determination to maintain an identity rooted in custom and history in the face of territorial dispossession, the loss of title deeds and the vote, and the steady erosion of human rights. Throughout these years, Mqhayi remained constant in offering praise and encouragement to his people, in celebrating their achievements, and in expressing Christian consolation and an unflinching faith in the future liberation of South Africa's black population from foreign control. In short, Eleanor Caulfield is the perfect vicar's daughter. Yet there was a time when she'd risked everything for a black-eyed gypsy who left her brokenhearted. Now he stands before her—dark, virile, and ready to escort her on a journey to find the truth about her heritage. Leaving eleven years ago should have given Taliesin freedom. Instead he's returned to Eleanor, determined to have her all to himself, tempting her with kisses and promising her a passion she's so long denied herself. But if he was infatuated before, he's utterly unprepared for what will happen when Eleanor decides to abandon convention—and truly live . . .

NUMBERING THE DEAD

THE COURSE AND PATTERN OF POLITICAL VIOLENCE IN THE NATAL MIDLANDS, 1987-1989

Numbering the Dead is a seminal account of the violent civil conflict that broke out around the city of Pietermaritzburg in 1987 and what ensued over the next three years. Aitchison and his colleagues, based at the Centre for Adult Education, documented and dissected the ebb and flow and the changing circumstances of this not-so-low intensity civil war in the region. They collected, computerised, and categorised literally thousands of instances of eyewitness or documentary evidence, and then applied an innovative synthesis of qualitative and quantitative approaches that uncovered the patterns and intimated the underlying causes. This book, mainly covering the period 1987 to 1989, presents a distillation of this monitoring work, conducted under unimaginably difficult and stressful conditions. It was originally done with the simple aim of stopping the killing by telling people in the province, in South Africa and the world what was happening, as accurately and truthfully as possible.
