The Music Road: A Journey in Music Reading, Book 2

For Piano

Alfred Music *The Music Road: A Journey in Music Reading* presents an exciting, effective way for beginning music readers to experience the joy of reading and playing music at the keyboard. In the three volumes of *The Music Road*, a comfortable sequence of steps is presented. Each unit is divided into three parts: "Stop! Look! Learn!," in which new material for learning is presented with follow-up written assignments, "Stop! Look! Play!," in which new material is used in simple playing experiences, short mini-melodies, and one measure musical examples, and "Destination," which uses folk songs and original music to offer many, many opportunities to "see and play" what has been presented in the learning part of the unit. Each unit has a corresponding "Stop! Listen!" appendix in which the ear is trained to "hear" what has been "seen" on the printed page. Listening to "high - low," keyboard location, quarter, half, whole notes, 3/4 - 4/4 time, and intervals are a few of the beginning focuses in Book 1. Relating the eye and ear in this way is excellent sensory reinforcement and makes sense, too, of music theory for the young student. An additional appendix contains a teacher's guide, and general and specific practice points to help the teacher and parent use *The Music Road* successfully. The slow progression throughout the books ensures the mastery of concepts, and the extensive use of those concepts at the keyboard gives the student a wonderful sense of accomplishment. The philosophical and psychological basis for the *Music Road* books is a natural extension of the Suzuki approach, yet teachers with traditional approaches find the books equally successful with their students.

The Road

Pan Macmillan The post-apocalyptic modern classic with an introduction by novelist John Banville. In a burned-out America, a father and his young son walk under a darkened sky, heading slowly for the coast. They have no idea what, if anything, awaits them there. The landscape is destroyed, nothing moves save the ash on the wind and cruel, lawless men stalk the roadside, lying in wait. Attempting to survive in this brave new world, the young boy and his protector have nothing but a pistol to defend themselves. They must keep walking. Winner of the Pulitzer Prize for Fiction, *The Road* is an incandescent novel, the story of a remarkable and profoundly moving journey. In this unflinching study of the best and worst of humankind, Cormac McCarthy boldly divines a future without hope, but one in which, miraculously, this young family finds tenderness. An exemplar of post-apocalyptic writing, *The Road* is a true modern classic, a masterful, moving and increasingly prescient novel. This edition is part of the Picador Collection, a series of the best in contemporary literature, inaugurated in Picador's 50th Anniversary year.

Round Ten

A Philosophical Journey Through the Afterlife

iUniverse Twenty-two-year-old Orion attends Nogero State University and is studying zoology, hoping to become either an underpaid veterinarian or an overqualified state worker. He is also taking a philosophy class that explores various religions and their beliefs and as a faithless person, Jones has a lot to say about the topic maybe too much. During a heated discussion about religion with some of his closest friends, Jones declares that no one knows for certain if God and the devil exist. As the friends leave the coffee shop, Orion asserts, If they do exist, I issue this challenge to the devil himself. That when I die, I will inevitably go to hell because I am agnostic and by not believing in God outright, I challenge the devil to mortal combat, and the winner controls hell and can do whatever one pleases. Moments after an automobile accident, Orion regains consciousness. Its apparent hes not in Nogero anymore. Hes landed in the underworld, and with the help of his guide, Kunle, Orion navigates the underworld. During his quest to learn what hell has to offer, he prepares for the ultimate showdown.
