#### God: A User's Guide

Poolbeg Press Ltd Jesus spent decades in India. - Ethiopians, not Jews, are the real chosen people. - A religion in Iran predicted the Virgin Birth, hundreds of years before Christ. - Abraham was an Iraqi. - Lenin was a Saint. - Worms have souls. - There's no such thing as the Holy Trinity. - All religions are the same. These are not conspiracy theories - but the genuine beliefs of the some of the world's major religions. In God: A Users' Guide, broadcaster Sean Moncrieff takes us through the history and development of the twenty largest religions in the world - in the process demonstrating that the truth is far more compelling than the fictional accounts. In the name of religion, millions have been killed, and millions have been saved. Political dynasties have been built on the back of religious belief, or been destroyed because of them. The history of religion is one of tyranny, betrayal, sacrifice, generosity and faith: where the

same 'facts' have often brought believers to dramatically different conclusions. From religions which have a multiplicity of Gods, to religions which have no God at all, God: A Users' Guide demonstrates how the vast majority of the world's religions did not develop in isolation, but were influenced by already existing belief systems. We have far more in common than you might think.

### The Noble Eightfold Path

### The Way to the End of Suffering

Buddhist Publication Society The Buddha's teachings center around two basic principles. One is the Four Noble Truths, in which the Buddha diagnoses the problem of suffering and indicates the treatment necessary to remedy this problem. The other is the Noble Eightfold Path, the practical discipline he prescribes to uproot and eliminate the deep underlying causes of suffering. The present book offers, in simple and clear language, a concise yet thorough explanation of the Eightfold Path. Basing himself solidly upon the Buddha's own words, the author examines each factor of the path to determine exactly what it implies in the way of practical training. Finally, in the concluding chapter, he shows how all eight factors of the path function in unison to bring about the realization of the

Buddhist goal: enlightenment and liberation.
