JEEP CHEROKEE XJ PERFORMANCE UPGRADES

1984-2001 - REVISED EDITION

CarTech Inc The Jeep Cherokee XJ is a pioneering SUV that delivers commendable performance and off-road capability. More than 3 million Cherokee XJs were manufactured during its production run. However, when the XJs rolled off the production lines, they were built primarily for the street. As a result, XJs need crucial modifications and high-performance upgrades to make them better for off-road duty. In this updated edition, author and veteran Cherokee

expert Eric Zappe guides you through each stage of an XJ build, so you can take the mild-mannered, bone-stock XJ and upgrade it to a capable off-road performer. Zappe delves into suspension bolt-on improvements, including lift kits to increase ground clearance and suspension travel. He also covers high-performance shocks and long-arm suspensions. Wheels and tires are your vital link to the terrain, and he reveals all the important considerations so you select the right combination. XJs need a heavy-duty steering system to negotiate challenging off-road conditions, and Zappe explains several ways to upgrade the steering. Driveline and axle upgrades are an important part of the performance equation, so these performance improvements are covered as well. But he doesn't stop there; he also explores engine performance improvements for the 2.5-, 2.8-, 4.0-liter engines so the Cherokee has more power for off-road performance. In addition, he covers some basic tips for body strengthening and adding skid plates. If you're ready to go off road with your Cherokee but you're not planning to build a top-dollar off-road machine, this is the book for you. With the techniques and latest products described in this book, you will be able to upgrade your XJ to much higher level of performance and your XJ will be at home off and on road.

AUSTIN ALLEGRO

AN ENTHUSIAST'S GUIDE

Crowood The stylist of the Austin Allegro, Harris Mann, said of the car that 'It took a lot of stick, but it wasn't that bad a car ... The trouble was that every one off the line was different in some way, thanks to quality control.' As a result, few have bothered to explore the little Austin's background; what it was designed to achieve, how it became the way it was, and what happened to make it so infamous. Austin Allegro - An Enthusiast's Guide redresses the balance, telling the Allegro's tale of grand designs, high hopes, management compromises, failed dreams, industrial unrest, national ridicule and finally, redemption. Now experiencing something of a comeback as a cheap and cheerful classic, the book provides ownership advice and buying information for all models. From the quietly competent series 2 models through to the sportily-styled and now very rare Equipe, the book re-evaluates the place of the Allegro in the classic car world and concludes that it is both a simple, economical classic choice, and an important part of British motoring history. Illustrated throughout with 170 colour photographs.

ARE WE NEARLY THERE YET?

A FAMILY'S 8000-MILE CAR JOURNEY AROUND BRITAIN

Summersdale Publishers LTD **The story of a madcap five-month family trip to write a travel guide—embracing the freedom of the open road with a spirit of discovery and an industrial supply of baby wipes "Hurry up," I shout at Dinah, whilst on the overhead telly Ray Mears' Survival is playing extraordinarily loudly because Charlie sat on the volume button of**

the remote. The kids writhe about in the V05 shampoo they just spilt, laughing as the last of their clean clothes bite the dust, and I'm thinking: "Survive driving round England with two under 4s, staying at a different hotel each night and visiting four or five attractions a day and sometimes a restaurant in the evening. Sleep all in the same room, go to bed at 7 p.m. after having had no evening to yourself, wake up at 7 a.m. and do it all again the next day with the prospect of another 140 nights of the same—then come and tell me about survival in your khaki ****ing shorts, Ray." They were bored, broke, burned out, and turning 40. So when Ben and his wife Dinah were approached to write a guidebook about family travel, they embraced the open road, ignoring friends' warnings: "One of you will come back chopped up in a bin bag in the roof box." Featuring deadly puff adders, Billie Piper's pajamas, and a friend of Hitler's, it's a story about love, death, falling out, moving on, and growing up, and 8,000 misguided miles in a Vauxhall Astra.
