Russian-American Dialogue on Cultural Relations, 1776-1914

**University of Missouri Press** Russian-American Dialogue on Cultural Relations, 1776-1914, the third volume in the Russian-American Dialogues series, provides English translations of the best Russian scholarship on cultural relations. Each essay originally appeared as an article in the former Soviet Union. Five issues are discussed: the contributions that each country made to the cultural life of the other; the correspondence and interactions between scientists, writers, and others from the two nations; the development of public perceptions and how these changed over time; the "American focus" in Russian periodicals during the nineteenth century; and the significant roles of Russians and the Russian presence in American history. The Russian articles on each of these subjects are followed by comments from American historians. The articles by the Russian scholars make extensive use of and liberally cite material from Russian archives and publications. As a result, they provide American readers with new scientific exchanges, personalities, and points of view. The result is a plethora of new material for Western historians of Russia as well as of the United States. The book provides an opportunity for scholars to examine more thoroughly the relevant issues of Russian-American cultural relations. An important scholarly contribution, Russian-American Dialogue on Cultural Relations, 1776-1914 brings a new dimension to the relationship between the United States and Russia before 1914. It will be of interest not only to historians of this period but to all historians and students of international cultural relations.

## Dialogue on the Frontier

### Catholic and Protestant Relations, 1793-1883

Kent State University Press A discussion of the expansion of Catholicism in the West Dialogue on the Frontier is a remarkable departure from previous scholarship, which emphasized the negative aspects of the relationship between Protestants and Catholics in the early American republic. Author Margaret C. DePalma argues that Catholic-Protestant relations took on a different tone and character in the late eighteenth and early nineteenth centuries. She focuses on the western frontier territory and explores the positive interaction of the two religions and the internal dynamics of Catholicism. When Father Stephen T. Badin arrived in the Kentucky frontier in 1793, intent on expanding Catholicism among the pioneers, he brought only his faith and courage, a capacity to work long hard hours, and an understanding of the need for meaningful interaction with his Protestant neighbors. He established the groundwork for the later arrivals of Edward D. Fenwick, the first bishop of Cincinnati, and Archbishop John B. Purcell. The interaction between these priests and the frontier Protestant community resulted in a dialogue of mutual necessity that allowed for the growth of the region, the nation, and the church. The ministries and stories of these three priests are representative of the problems the Catholic Church faced in overcoming anti-Catholic sentiment and the solutions it found in its efforts to lay a permanent foundation in the West. This book will be of great interest to scholars of the early republic and religious life and of the urban landscape of the Midwest.

## Ferrytale

### The Career of W.H. "Ping" Ferry

Stanford University Press Wilbur H. "Ping" Ferry (1910-1995) was a self-styled "town crank," an influential and iconoclastic figure who seemingly knew everyone worth knowing in the mid-twentieth century. Businessman, thinker, activist, government advisor, and philanthropist, Ping's career was as varied as his pronouncements. In Victor Navasky's words, his ultimate importance was "the impossible example he set for the rest of us."

## Shakespeare and Social Dialogue

### Dramatic Language and Elizabethan Letters

Cambridge University Press Shakespeare and Social Dialogue deals with Shakespeare's language and the rhetoric of Elizabethan letters. Moving beyond claims about the language of individual Shakespearean characters, Magnusson analyses dialogue, conversation, sonnets and particularly letters of the period, which are normally read as historical documents, as the verbal negotiation of specific social and power relations. Thus, the rhetoric of service or friendship is explored in texts as diverse as Sidney family letters, Shakespearean sonnets and Burghley's state letters. The book draws on ideas from discourse analysis and linguistic pragmatics, especially 'politeness theory', relating these to key ideas in epistolary handbooks of the period, including those by Erasmus and Angel Day and demonstrates that Shakespeare's language is rooted in the everyday language of Elizabethan culture. Magnusson creates a way of reading both literary texts and historical documents which bridges the gap between the methods of new historicism and linguistic criticism.

### Thomas Merton and the Monastic Vision

Wm. B. Eerdmans Publishing Cunningham (theology, U. of Notre Dame) explores Merton's monastic life and his subsequent growth into a modern-day spiritual master. Starting from Merton's entrance into the Abbey of Gethsemani in 1941, he highlights the development of Merton's monastic life against the cultural background of the American experience and the vast upheavals in the Roman Catholic Church, thus showing how his writings and continuing influence can only be understood against the background of his contemplative experience as a Trappist monk. Father Timothy Kelley, the current abbot of the Abbey of Gethsemani and a former novice under Merton, provides a foreword. Annotation copyrighted by Book News, Inc., Portland, OR

The Power of Dialogue

Critical Hermeneutics After Gadamer and Foucault

MIT Press Exemplifying a fruitful fusion of French and German approaches to social theory, The Power of Dialogue transforms Jurgen Habermas's version of critical theory into a new "critical hermeneutics" that builds on both Hans-Georg Gadamer's philosophical hermeneutics and Michel Foucault's studies of power and discourse. At the book's core is the question of how social power shapes and influences meaning and how the process of interpretation, while implicated in social forms of power, can nevertheless achieve reflective distance and a critique of power. It offers an original perspective on such issues as the impact of prejudice and cultural background on scientific interpretation, the need to understand others without assimilating their otherness, and the "truth" of interpretation.
