TELECOMMUNICATIONS MANAGEMENT

Routledge With today's communications industry experiencing major changes on an almost daily basis, media managers must have a clear understanding of the different delivery platforms, as well as a grasp of critical management, planning, and economic factors in order to stay current and move their organizations forward. Telecommunications Management helps current and future media professionals understand the relationship and convergence patterns between the broadcast, cable television, telephony, and Internet communication industries. Author Richard A. Gershon examines telecommunications industry structures and the management practices and business strategies affecting the delivery of information and entertainment services to consumers. He brings in specialists to present the finer points of management and planning responsibilities. Case studies from the International Radio and Television Society (IRTS) competition supplement the main text and offer an invaluable perspective on management issues. Developed for students in telecommunications management, electronic media management, and telecommunication economics, this volume also serves as a practical reference for the professional manager.

THE 7 SECRETS TO SELLING MORE BY SELLING LESS:THE ULTIMATE GUIDE TO REINVENTING YOUR SALES LIFE

It's time to reinvent your sales life...Your sales career is good, but not great. Your customers like you but don't love you. Every potential customer does not want to talk to you (the salesperson), even if they need your product or service. You keep reading the same sales books and listening to the same CD's and podcasts. Everyone is telling you to do the same old things. You're ready to make a change. In his trailblazing and wonderfully refreshing book, Allan Langer takes on the outdated, overused and utterly ineffective sales philosophies of the past and kicks them to the curb. Today's customer's do not want a sales pitch, do not want to be coerced, and absolutely do not want to be "closed." In this book, you will learn: To sell more than you ever have in your career; to sell customers a product or service and actually feel good about yourself doing it; and to never use a "sales pitch" again. The 7 Secrets is your GPS with a new destination, a new route that will take you from where you are now, to a new place on your personal map that will change your life and the life of your loved ones. It will also change the life of your customers, as they will go from hating salespeople, to only wanting to do business with you. Whether you are brand new in the profession, or a seasoned veteran, 7 Secrets will be the best investment you can make in your career, and in yourself.

TIVO FOR DUMMIES

John Wiley & Sons

SO YOU WANNA: START A FOOD OR BEVERAGE BUSINESS

A PICK-YOUR-PATH BUSINESS BOOK

Matt Holt A choose-your-own-path guide to launching and sustaining a successful food or beverage business The specialty food and beverage business is a thriving industry, and the barriers to entry are low: all you need is a recipe and a kitchen. It sounds simple, but launching a food or beverage company is a maze of choices and consequences. (Will you taste test your product with friends and family for free, or commission a costly market feasibility study? Will you enter a large and popular category, or offer something totally new? Will you cook in your home, rent space in a shared kitchen, or build your own facility?) Douglas Raggio has been there: both as a food founder and as a consultant to other successful startups, and he's come to learn that every choice a food founder makes has a fairly predictable outcome. In *So You Wanna: Start a Food or Beverage Business*, he'll help you think through the many decisions you'll make along the road from an idea to a successful company—whether you see yourself building a following at your farmer's market, partnering with a local restaurant, or launching the next Pepsi. But this is not a traditional how-to book, instructional manual, or personal story of entrepreneurial success. Don't even expect to read it straight through from beginning to end! Raggio's book follows four archetypal food startups that cover a range of business ideas and founders. Every few pages, you must make crucial decisions about the next step to take in growing the business, and flip to another section that will help you understand how that choice is likely to play out. In these pages, you'll learn the ins and outs of:

- Coming up with an exciting, profitable new product
- Funding your startup
- Conducting market research
- Pricing and producing to scale
- Partnerships, promotions, and branding
- Deciding when to keep going--and when to fold

So You Wanna: Start a Food or Beverage Business will help you to navigate the pathways that lead to success, and avoid the roads that lead to frustration (or worse). By understanding the perils and pleasures of this fast-growing industry you will be able to approach your own business with confidence, make the decisions that feel right to you . . . and learn to have a lot of fun along the way!

SEARCHING AND SEIZING COMPUTERS AND OBTAINING ELECTRONIC EVIDENCE IN CRIMINAL INVESTIGATIONS

STRATEGIC PROJECT MANAGEMENT MADE SIMPLE

PRACTICAL TOOLS FOR LEADERS AND TEAMS

John Wiley & Sons When Fortune Magazine estimated that 70% of all strategies fail, it also noted that most of these strategies were basically sound, but could not be executed. The central premise of *Strategic Project Management Made Simple* is that most projects and strategies never get off the ground because of adhoc, haphazard, and obsolete methods used to turn their ideas into coherent and actionable plans. *Strategic Project Management Made Simple* is the first book to couple a step-by-step process with an interactive thinking tool that takes a strategic approach to designing projects and action initiatives. *Strategic Project Management Made Simple* builds a solid platform upon four critical questions that are vital for teams to intelligently answer in order to create their own strong, strategic foundation. These questions are: 1. What are we trying to accomplish and why? 2. How will we measure success? 3. What other conditions must exist? 4. How do we get there? This fresh approach begins with clearly understanding the what and why of a project - comprehending the bigger picture goals that are often given only lip service or cursory reviews. The second and third questions clarify success measures and identify the risky assumptions that can later cause pain if not spotted early. The how questions - what are the activities, budgets, and schedules - comes last in our four-question system. By contrast, most project approaches prematurely concentrate on the how without first adequately addressing the three other questions. These four questions guide readers into

fleshing out a simple, yet sophisticated, mental workbench called "the Logical Framework" - a Systems Thinking paradigm that lays out one's own project strategy in an easily accessible, interactive 4x4 matrix. The inclusion of memorable features and concepts (four critical questions, LogFrame matrix, If-then thinking, and Implementation Equation) make this book unique.

IDEA MAN

A MEMOIR BY THE CO-FOUNDER OF MICROSOFT

Penguin UK By his early thirties, Paul Allen was a world-famous billionaire-and that was just the beginning. In 2007 and 2008, Time named Paul Allen, the cofounder of Microsoft, one of the hundred most influential people in the world. Since he made his fortune, his impact has been felt in science, technology, business, medicine, sports, music, and philanthropy. His passion, curiosity, and intellectual rigor-combined with the resources to launch and support new initiatives-have literally changed the world. In 2009 Allen discovered that he had lymphoma, lending urgency to his desire to share his story for the first time. In this long-awaited memoir, Allen explains how he has solved problems, what he's learned from his many endeavors-both the triumphs and the failures-and his compelling vision for the future. He reflects candidly on an extraordinary life. The book also features previously untold stories about everything from the true origins of Microsoft to Allen's role in the dawn of private space travel (with SpaceShipOne) and in discoveries at the frontiers of brain science. With honesty, humor, and insight, Allen tells the story of a life of ideas made real.

GOOD STRATEGY/BAD STRATEGY

THE DIFFERENCE AND WHY IT MATTERS

Profile Books When Richard Rumelt's Good Strategy/Bad Strategy was published in 2011, it immediately struck a chord, calling out as bad strategy the mish-mash of pop culture, motivational slogans and business buzz speak so often and misleadingly masquerading as the real thing. Since then, his original and pragmatic ideas have won fans around the world and continue to help readers to recognise and avoid the elements of bad strategy and adopt good, action-oriented strategies that honestly acknowledge the challenges being faced and offer straightforward approaches to overcoming them. Strategy should not be equated with ambition, leadership, vision or planning; rather, it is coherent action backed by an argument. For Rumelt, the heart of good strategy is insight into the hidden power in any situation, and into an appropriate response - whether launching a new product, fighting a war or putting a man on the moon. Drawing on examples of the good and the bad from across all sectors and all ages, he shows how this insight can be cultivated with a wide variety of tools that lead to better thinking and better strategy, strategy that cuts through the hype and gets results.
