The ban left the rapidly expanding Sports Car Club of America with a problem: where to hold races. At precisely the same time, Curtis LeMay, head of Strategic Air Command, was having problems obtaining funds from Congress to improve conditions on the many air bases located around the country. The solution was a marriage of convenience, whereby the SCCA was allowed access to active SAC air bases to hold its race programmes. In return, the SAC base would receive the net profits from the event, which would be put into the Airmen's Living Improvement Fund. As a result of some initial financial success for the SAC bases, the scheme was also adopted by non-SAC bases together with regional clubs, with the same agreement in place. Complaints from airmen alerted Congressman Errett Scrivner to potential irregularities, and he ordered an audit to be conducted to ascertain precisely what it was costing the air bases to host the races. His findings led to the cessation of the races, ordered by Congress. The product of a long period of extensive research by the author, this book gives a fascinating insight into this two-year period, complemented by over 150 period pictures, many previously unpublished. **Ford Cleveland 335-Series V8 Engine 1970 to 1982** Veloce Publishing Ltd Years of meticulous research have resulted in this unique history, technical appraisal (including tuning and motorsports) and data book of the Ford V8 Cleveland 335 engines produced in the USA, Canada and Australia, including input from the engineers involved in the design, development and subsequent manufacture of this highly prized engine from its inception in 1968 until production ceased in 1982.
