Capstone A proud hare brags that he is the fastest animal in the world, and so when a tortoise challenges him to a race, the hare is confident that he will win.

THE FLAT EARTH TRILOGY BOOK OF SECRETS I

Lulu.com This book is an Anthology of Gregory Lessing Garrett's writings and others on the topic of Flat Earth Plane Cosmology of all types, including Enclosed Earth, Hollow Earth, Concave Earth, Infinite Plane Earth, The Enochian Earth Model, etc... The hope is that the ideas expounded in this Flat Earth Trilogy series will provide compelling justifications for the claim that no curvature can be found on the Earth, which points to the empirical conclusion that we live on a plane and not a spinning ball in science fiction outer space. The details regarding the possible topography of the Earth are discussed in depth in this book, but ultimately, the absolute true topography of the Earth is not known by anyone. -Gregory Lessing Garrett

BEST STEM RESOURCES FOR NEXTGEN SCIENTISTS: THE ESSENTIAL SELECTION AND USER'S GUIDE

THE ESSENTIAL SELECTION AND USER'S GUIDE

ABC-CLIO Intended to support the national initiative to strengthen learning in areas of science, technology, engineering, and mathematics, this book helps librarians who work with youth in school and public libraries to build better collections and more effectively use these collections through readers' advisory and programming. • Introduces more than 500 STEM resource suggestions for toddlers to young adults • Highlights more than 25 detailed library program or activity suggestions to be paired with STEM book titles • Provides resource suggestions for professional development • Contains bonus sections on STEM-related graphic novels, apps, and other media

TORTOISE AND HARE'S AMAZING RACE

Arbordale Publishing A retelling of the classic story with a math twist. Henry Hare was always bragging about how fast he was. One day he challenges Tessie Tortoise to a mile-long race up the hill. Henry leaps ahead for the first eighth of a mile. As Tessie approaches, he bounds ahead again. Fractions and distance measurements mark their progress as Tessie and Henry race to the finish line.

A BOX FULL OF TALES

American Library Association Encourages the creation of storytelling prop boxes, explaining a way to gather songs, books, flannel boards, toys, and finger plays together in a single location to be used by multiple librarians.

THE HARE AND THE MOON - SPECIAL EDITION

A CALMING FABLE FOR ANXIOUS CHILDREN

The Hare and the Moon a magical, calming fable for anxious children written and illustrated by therapist and artist Sophie Shaw. Recommended by SENDCOs, therapists, teachers and Senior Lecturers in Special Education - the sweet, scared Hare will gently show your anxious child how to overcome their worries, using the simple mindfulness meditation techniques that he learns along the way. This beautiful new Special Edition is printed in full colour, with 11 stunning new illustrations and an expanded end section of calming, therapeutic activities and gentle self-reflection. Did you ever wonder what happened after the Tortoise beat the Hare in a race? Young Hare loves running - there's nothing like it! But when he's beaten by the slow Tortoise, he feels embarrassed and can't stop worrying. What can he do? He turns to his mum for help and she gives him the strangest advice - she tells him to go and meet the Moon . . . This book is a gentle introduction to mindfulness and meditation techniques that can help anxious children calm their nerves and manage their emotions.

ZOOLOGICAL MYTHOLOGY;

OR, THE LEGENDS OF ANIMALS

HOW TO GET YOUR CHILD TO LOVE READING

Algonquin Books ["An exuberant treasure trove for parents." —Publishers Weekly Are children reading enough? Not according to most parents and teachers, who know that reading aloud with children fosters a lifelong love of books, ensures better standardized test scores, promotes greater success in school, and helps instill the values we most want to pass on. Esmé Raji Codell—an inspiring children's literature specialist and an energetic teacher—has the solution. She's turned her years of experience with children, parents, librarians, and fellow educators into a great big indispensable volume designed to help parents get their kids excited about reading. Here are hundreds of easy and inventive ideas, innovative projects, creative activities, and inspiring suggestions that have been shared, tried, and proven with children from birth through eighth grade. This five-hundred-page volume is brimming with themes for superlative storytimes and book-based birthday parties, ideas for mad-scientist experiments and half-pint cooking adventures, stories for reluctant readers and book groups for boys, step-by-step instructions for book parades, book-related crafts, storytelling festivals, literature-based radio broadcasts, readers' theater, and more. There are book lists galore, with subject-driven reading recommendations for science, math, cooking, nature, adventure, music, weather, gardening, sports, mythology, poetry, history, biography, fiction, and fairy tales. Codell's creative thinking and infectious enthusiasm will empower even the busiest parents and children to include literature in their lives.](#)

THE TORTOISE AND THE HARE

NorthSouth Books A classic retold by Bernadette Watts—one of Europe's most recognized and beloved fairy-tale artists. Now available in paperback When Tortoise says to Hare, "I bet I can beat you in a running race!" everyone laughs. Tortoise puts one foot in front of the next. Hare stops to nibble carrot tops and cabbages. . . . Who will have the last laugh? "A fresh retelling of the old Aesop Fable so much beloved by past generations of young readers."—Midwest Book Review

INVOKING ANIMAL MAGIC

John Hunt Publishing Invoking Animal Magic explores the power and wisdom of animal allies. More than a compilation of interesting facts—stories, folklore and animal behavior are integrated in a modern pagan perspective. Illustrations based on cave paintings and artifacts add a visual component to the text while thought-provoking questions and fun activities help ground the material in personal experience. Invoking Animal Magic offers an in-depth study of nine animals, each with an important place in Euro-paganism—their myths and legends, historical context and magical themes. Rituals and spells are also included in each section.

THE TORTOISE AND THE HARE

Simon & Schuster Recounts in simple dialogue the famous tale of the race between the persevering tortoise and the boastful hare.

INDEX TO FAIRY TALES, MYTHS AND LEGENDS

SPACE POLICY ALTERNATIVES

Routledge This book looks more to the future and outside space programs to the policy context in which they operate. It examines the policies that drive the space science program and recommend several changes and considers the history of the Shuttle program

as a caution for new launch system developments.

THE SIX DIMENSIONS OF PROJECT MANAGEMENT

TURNING CONSTRAINTS INTO RESOURCES

Berrett-Koehler Publishers Master the Six Dimensions of the Project Management Universe! Learn how to turn constraints into resources to achieve project objectives! Through case studies and practical exercises, The Six Dimensions of Project Management demonstrates the six possible combinations (or dimensions) of the "hierarchy of constraints" (time, cost, and performance existing in a hierarchy of driver, middle and weak constraint) and the specific set of challenges and opportunities associated with each. Project managers will learn how to recognize a project's dimension and, by understanding its set of problems and resources, get the job done on time, on budget, and to spec! You will uncover hidden flexibility, unlock valuable new resources, discover threats before they turn into problems, and win the admiration of customers and projects sponsors alike. You'll learn: •How to use the "inner purpose" of a project to empower project managers and team players •Why certain kinds of failure point the way to higher levels of success •What creates opposition to your project—and how to leverage it for your benefit •Where to look to find creative opportunities on every project

ROOF OVER LOVE & LUST

AuthorHouse Terry Johnson refuses to allow the impending storm to keep her from sharing the news of her pregnancy with her best friend. That decision will change her life forever. Terror will shake the very core of her soul as she finds herself in a fight to keep those she loves alive. Before the clock strikes midnight, Terry may lose everything she cherishes in life. She drove through the storm, now can Terry live through it. Only one of the women will survive to tell the story. Years later, she goes by the name Danya but the memory of that night still haunts her. Danya finds herself coming face to face with her past when she finds out that the man that killed her best friend has been released. She slowly discovers the truth about what really happened that stormy night. Every illusion Danya had about her past and her life will be shattered. She once again finds herself fighting to save her life.

THE MORAL OF THE STORY

A ONE ACT PLAY

Aesop's Fable The Tortoise and the Hare meets an African Ibo legend. This one-act comedy for kids reveals what inquiring minds have always wanted to know - the inside scoop behind Aesop's most famous Fable and why tortoises have cracked shells. Why does Harry Hare, television spokes-hare for the National Hare Council on Carrots, race his longtime friend, Tommy Tortoise? And why can't Harry's niece, Harriet Hare spell carrot? This modernized children's play contains an ancient Ibo (northern Nigeria) legend.

SACRED NARRATIVE

READINGS IN THE THEORY OF MYTH

Univ of California Press Alan Dundes defines myth as a sacred narrative that explains how the world and humanity came to be in their present form. This new volume brings together classic statements on the theory of myth by the authors. The twenty-two essays by leading experts on myth represent comparative, functionalist, myth-ritual, Jungian, Freudian, and structuralist approaches to studying the genre.

TORTOISE'S TRICK

Red Rocket Readers The first time Hare and Tortoise had a race, Hare stopped and slept while Tortoise kept plodding along to win. Hare was cross that he lost the race, so he wanted to race against Tortoise again. Who do you think won this time?

MANKIND BEYOND EARTH

THE HISTORY, SCIENCE, AND FUTURE OF HUMAN SPACE EXPLORATION

Columbia University Press Seeking to reenergize Americans' passion for the space program, the value of further exploration of the Moon, and the importance of human beings on the final frontier, Claude A. Piantadosi presents a rich history of American space exploration and its major achievements. He emphasizes the importance of reclaiming national command of our manned program and continuing our unmanned space missions, and he stresses the many adventures that still await us in the unfolding universe. Acknowledging space exploration's practical and financial obstacles, Piantadosi challenges us to revitalize American leadership in space exploration in order to reap its scientific bounty. Piantadosi explains why space exploration, a captivating story of ambition, invention, and discovery, is also increasingly difficult and why space experts always seem to disagree. He argues that the future of the space program requires merging the practicalities of exploration with the constraints of human biology. Space science deals with the unknown, and the margin (and budget) for error is small. Lethal near-vacuum conditions, deadly cosmic radiation, microgravity, vast distances, and highly scattered resources remain immense physical problems. To forge ahead, America needs to develop affordable space transportation and flexible exploration strategies based in sound science. Piantadosi closes with suggestions for accomplishing these goals, combining his healthy skepticism as a scientist with an unshakable belief in space's untapped—and wholly worthwhile—potential.
