TRINITY

The Best-Kept Secret

Hard evidence has existed since 1945 for the actual recovery of unidentified flying craft in the United States, according to a new research book, "TRINITY: The Best-Kept Secret" written by two seasoned analysts of the global patterns behind the UFO phenomenon. Italian investigative journalist Paola Leopizzi Harris and French-born information scientist Dr. Jacques F. Vallée have teamed up to uncover the details of a New Mexico crash in 1945, fully two years before the well-known incident at Roswell and the famous sighting by pilot Kenneth Arnold in 1947. Over several site investigation surveys Harris and Vallée reconstructed the historic observations by three witnesses, two of whom are still living, who described to them the circumstances of the crash, with details of the recovery of a nearly-intact flying vehicle and its occupants by an Army detachment. Combining their long experience in field research around the world, the authors have documented the step-by-step efforts by the military to remove the object, an avocado-shaped craft weighting several tons, from the property where it crash-landed during a storm. Surprisingly, the literature of the field only includes a few passing mentions about the case, and only one (foreign) TV documentary has mentioned it, but the correlation between the crash of the extraordinary object and the explosion of the first atom bomb at White Sands, less than 20 miles away, has been missed. Harris and Vallée suggest that the correlation is significant for physical, geographic and biological reasons, quite apart from the obvious strategic implications. The witnesses were able to observe not only the actual crash of the object on their property but every step of the military efforts to lift it and take it away. Fearing retaliation, they remained silent for some 60 years about what they had seen and done over those nine days at the site while the recovery was proceeding. When placed in the context of the history of chemical and physical analysis of retrieved UFO debris--an area where Harris and Vallée have long collaborated--the devices observed by the witnesses raise a number of very important scientific questions. The Honorable Paul Hellyer, former Minister of National Defence of Canada, has stated: "Paola Harris and Jacques Vallée have spent much effort doing field research on location (...) It is now time that their discovery be revealed to the world."

Keep Christianity Weird

Embracing the Discipline of Being Different

[NavPress](#) Jesus is different. Go and do likewise. Many Christians have become comfortable letting the world mold them instead of being set apart by God. And many churches have traded in their biblical roots for complacent conventionality. But Jesus and the church are anything but conventional. The hallmark of our faith is that it sees the world differently than the world sees itself. We are called to be eccentric—off center, unique, different; not conformed to the patterns of the world but transformed by the renewing of our minds. By the grace of God we are not only dissatisfied by sin but increasingly uncompelled by conventionality. So resist the allure of acceptability. Get back to the unsafe roots of our faith. Be equipped to surprise the world with the Good News it didn't even know it was waiting for. Challenge the way things are by living a life that has been truly set free by Christ.

The Role of Trust in Conflict Resolution

The Israeli-Palestinian Case and Beyond

[Springer](#) Built on the premise that trust is one of the most important factors in intergroup relations, conflict management and resolution at large, this volume explores trust and its mechanisms and operations especially in the Israeli-Palestinian conflict. Significantly, this volume focuses not only on the nature of trust and distrust in the Israeli-Palestinian conflict, but it also explores how it is possible to build and increase trust on both sides in the conflict, a necessity in order to advance the stalled peace process. As trust is a concept that is interdisciplinary by nature, so are this volume's contributors: sociologists, philosophers, sociologists, social psychologists, political scientists, as well as experts in the Middle East, Islam, Judaism and the Israeli-Palestinian conflict bring together real multidisciplinary perspectives that complement each other and then provide a comprehensive picture about the nature of trust and distrust and its ramification and implications for the Israeli-Palestinian conflict. Divided into five thematic parts, the volume begins with by examining the theoretical basis of trust research from multiple perspectives. Then, it presents chapters on trust, distrust, and trust-building in other conflicts around the world. The third part is a unique feature of this volume as it takes a contextual approach: it emphasizes the importance of particular cultural and religious considerations on both sides of the conflict. The thrust of the book is examined in the next section. Part IV discusses and analyses various aspects of trust, and specifically distrust, in the context of the Israeli-Palestinian conflict. Significantly, the chapters of this part take the perspectives of the participants in the conflict: Israeli Jews, Palestinians and Israeli Arabs. Finally, the volume concludes by providing an integrative conceptual perspective based on the principles of social and political psychology. An important goal of this volume is to not only explore trust and distrust in an intractable conflict, but also to provide practical multi-disciplinary outlooks and implications to advance trust building in two conflict ridden societies--Israeli and Palestinian, and other societies around the world.

The Complete Works of C. H. Spurgeon, Volume 8

Sermons 427 to 486

[Delmarva Publications, Inc.](#) Volume 8 Sermons 427-486 Charles Spurgeon (19 June 1834 - 31 January 1892) is one of the church's most famous preachers and Christianity's foremost prolific writers. Called the "Prince of Preachers," he was one of England's most notable ministers for most of the second half of the nineteenth century, and he still remains highly influential among Christians of different denominations today. His sermons have spread all over the world, and his many printed works have been cherished classics for decades. In his lifetime, Spurgeon preached to more than 10 million people, often up to ten times each week. He was the pastor of the congregation of the New Park Street Chapel (later the Metropolitan Tabernacle) in London for 38 years. He was an inexhaustible author of various kinds of works including sermons, commentaries, an autobiography, as well as books on prayer, devotionals, magazines, poetry, hymns and more. Spurgeon was known to produce powerful sermons of penetrating thought and divine inspiration, and his oratory and writing skills held his audiences spellbound. Many Christians have discovered Spurgeon's messages to be among the best in Christian literature. Edward Walford wrote in *Old and New London: Volume 6 (1878)* quoting an article from the Times regarding one of Spurgeon's meetings at Surrey: "Fancy a congregation consisting of 10,000 souls, streaming into the hall, mounting the galleries, humming, buzzing, and swarming—a mighty hive of bees—eager to secure at first the best places, and, at last, any place at all. After waiting more than half an hour—for if you wish to have a seat you must be there at least that space of time in advance—Mr. Spurgeon ascended his tribune. To the hum, and rush, and trampling of men, succeeded a low, concentrated thrill and murmur of devotion, which seemed to run at once, like an electric current, through the breast of every one present, and by this magnetic chain the preacher held us fast bound for about two hours. It is not my purpose to give a summary of his discourse. It is enough to say of his voice, that its power and volume are sufficient to reach every one in that vast assembly; of his language, that it is neither high-flown nor homely; of his style, that it is at times familiar, at times declamatory, but always happy, and often eloquent; of his doctrine, that neither the 'Calvinist' nor the 'Baptist' appears in the forefront of the battle which is waged by Mr. Spurgeon with relentless animosity, and with Gospel weapons, against irreligion, cant, hypocrisy, pride, and those secret bosom-sins which so easily beset a man in daily life; and to sum up all in a word, it is enough to say of the man himself, that he impresses you with a perfect conviction of his sincerity." More than a hundred years after his death, Charles Spurgeon's legacy continues to effectively inspire the church around the world. For this reason, Delmarva Publications has chosen to republish the complete works of Charles Spurgeon.
