NEVER WORK HARDER THAN YOUR STUDENTS AND OTHER PRINCIPLES OF GREAT TEACHING

ASCD Is great teaching a gift that only a few of us are born with, or is it a skill that can be learned? In Never Work Harder Than Your Students, Robyn Jackson makes a radical assertion: Any teacher can become a master teacher by developing a master teacher mindset. The master teacher mindset can be achieved by rigorously applying seven principles to your teaching until they become your automatic response to students in the classroom. The more you practice these seven principles, the more you begin to think like a master teacher: 1. Start where your students are. 2. Know where your students are going. 3. Expect to get your students to their goal. 4. Support your students along the way. 5. Use feedback to help you and your students get better. 6. Focus on quality rather than quantity. 7. Never work harder than your students. Using these principles, Jackson shows you how to become a master teacher no matter where you are in your practice. Each chapter provides a detailed explanation of one of the mastery principles, the steps you need to take to apply them to your own practice, and suggestions for how you can begin practicing the principle in your classroom right away. Jackson offers stories from her own teaching practice, as well as from other teachers she has helped, to show you how each principle works. Teaching is a hard job, but using Jackson's principles will help you and your students reap the rich rewards of that hard work.

WRITING VISIONS OF HOPE

TEACHING TWENTIETH-CENTURY AMERICAN LITERATURE AND RESEARCH

IAP This nine-chapter book narrates a writing-centered approach to the teaching of literature and literary research. As the title suggests, the book also embraces a thematic approach to reading and writing about twentieth-century American literature, focusing on the grounds for hope in an age of despair. The first five chapters explore in detail the teaching of the twentieth-century American literature course at the University of Pristina in Kosovo, where the author served as Fulbright Professor of American Literature in the spring semester of 2012. Throughout, these chapters narrate students' in-class interactions to illustrate writing-to-learn strategies for teaching the literature. Chapter six then follows the same cohort of 22 students as they learned to ground their literary research in their own questions about American and Balkans narratives of oppression and liberty, of despair and hope. The last three chapters document the responses of students and their professors to this American theme of liberty and hope as seen through the Balkans lenses of ethnic violence and emerging republican government. Specifically, chapter seven focuses on students' participation in a blog featuring Balkans literature that explores the same issues of liberty and justice examined in the American literature they have read. Chapter eight then celebrates student writing, the fruit of the writing-to-learn strategies narrated in earlier chapters. Finally, chapter nine narrates professors' and students' responses, gathered through surveys and interviewing, to questions about their country's violent past and the value of literary study in preparing citizens to shape a new republic.

AVOIDING A PARENTAL FREAK-OUT

STRAIGHT TALK FROM COLLEGE PROFESSOR TO CHRISTIAN PARENT

AuthorLoyalty Students across America have learned that the transition from high school to college is one of the toughest assignments they have ever received. And, for a Christian student, achieving success in a secular university is even harder. Did you know that . . . Only 32% of high school seniors graduate with the skills they need for college. Only 20% of entering college students have the basic quantitative skills necessary to compare ticket prices or calculate the cost of food. By the end of their freshman year 30% of college students drop out. The four-year graduation rate for students attending public colleges and universities is currently 33%. The six-year rate is 58%. More than 85% of college students feel overwhelmed and 51% report that "things are hopeless." Christian students are not immune to the bad statistics. They should be our best college students, but many are falling prey to the same forces that derail secular students. What is a parent to do? Help is here! In this book, we give Christian parents the straight scoop on how to prepare your kids for college. Far more Christian students end up at secular colleges and universities than Christian colleges, but there are few resources to help parents. We show you what to do, what to avoid, what critical information you need, and which battles to fight. We offer tons of talking points to share with your kids. And best, we save you sleep, frustration, money, heartaches, pints of Baskin-Robbins double chocolate, and hours of watching the Hallmark Channel to chill out. IELTS

A MANUAL FOR WRITERS OF RESEARCH PAPERS, THESES, AND DISSERTATIONS, SEVENTH EDITION

CHICAGO STYLE FOR STUDENTS AND RESEARCHERS

[University of Chicago Press](#) Dewey. Bellow. Strauss. Friedman. The University of Chicago has been the home of some of the most important thinkers of the modern age. But perhaps no name has been spoken with more respect than Turabian. The dissertation secretary at Chicago for decades, Kate Turabian literally wrote the book on the successful completion and submission of the student paper. Her *Manual for Writers of Research Papers, Theses, and Dissertations*, created from her years of experience with research projects across all fields, has sold more than seven million copies since it was first published in 1937. Now, with this seventh edition, Turabian's *Manual* has undergone its most extensive revision, ensuring that it will remain the most valuable handbook for writers at every level—from first-year undergraduates, to dissertation writers apprehensively submitting final manuscripts, to senior scholars who may be old hands at research and writing but less familiar with new media citation styles. Gregory G. Colomb, Joseph M. Williams, and the late Wayne C. Booth—the gifted team behind *The Craft of Research*—and the University of Chicago Press Editorial Staff combined their wide-ranging expertise to remake this classic resource. They preserve Turabian's clear and practical advice while fully embracing the new modes of research, writing, and source citation brought about by the age of the Internet. Booth, Colomb, and Williams significantly expand the scope of previous editions by creating a guide, generous in length and tone, to the art of research and writing. Growing out of the authors' best-selling *Craft of Research*, this new section provides students with an overview of every step of the research and writing process, from formulating the right questions to reading critically to building arguments and revising drafts. This leads naturally to the second part of the *Manual for Writers*, which offers an authoritative overview of citation practices in scholarly writing, as well as detailed information on the two main citation styles ("notes-bibliography" and "author-date"). This section has been fully revised to reflect the recommendations of the fifteenth edition of *The Chicago Manual of Style* and to present an expanded array of source types and updated examples, including guidance on citing electronic sources. The final section of the book treats issues of style—the details that go into making a strong paper. Here writers will find advice on a wide range of topics, including punctuation, table formatting, and use of quotations. The appendix draws together everything writers need to know about formatting research papers, theses, and dissertations and preparing them for submission. This material has been thoroughly vetted by dissertation officials at colleges and universities across the country. This seventh edition of *Turabian's Manual for Writers of Research Papers, Theses, and Dissertations* is a classic reference revised for a new age. It is tailored to a new generation of writers using tools its original author could not have imagined—while retaining the clarity and authority that generations of scholars have come to associate with the name Turabian.

IN THE SHADOW OF ANGELS

[iUniverse](#) In his book *In the Shadow of Angels*, Charles Maldon reflects upon that season of his life when he was without the peace of God. He presents the contribution of several extraordinary saints whom he addresses as angels who are largely responsible for his journey and victory into the perfect peace of God. He reveals the uniqueness of each angel and relates the love and care provided by each when he needed someone to encourage and stand by him on his march toward his purpose and calling in God. These individuals displayed strength and character that became an incentive for him to strive to be the best person that God ordained him to be. Without them being there, his life in the Deep South would almost definitely have taken a different direction. By the mercy of God, he encountered each of them at a time when he was in desperate need of love and encouragement to keep from fainting. Each of them left him with a lifetime memory and a victory of healing and peace and thankfulness.

BECOMING TEACHERS OF INNER-CITY STUDENTS

LIFE HISTORIES AND TEACHER STORIES OF COMMITTED WHITE TEACHERS

[Springer Science & Business Media](#) *Becoming Teachers of Inner-city Students* takes on the continuing challenges of White teachers in increasingly de facto re-segregated schools of the present. Drawing on the author's eighteen years of experience as a classroom teacher and his research on White teachers of inner-city students, *Becoming Teachers* provides key discussions on professional identity for preservice teachers, professional educators, and researchers interested in diversity education or urban education. Driving at complex recognitions of race, class, culture, language, and gender as a basis for teaching and learning with diverse urban students, the author's and other White teachers' life and teaching stories move beyond prescriptive models of professional identity for preservice and professional teachers to "follow." Instead, life and teaching stories in *Becoming Teachers* demonstrate again and again that in teaching the personal is political, professional knowledges are forged in practice, and - overall - that becoming a professional teacher is a process that draws on one's experiences and inner-most convictions. *Becoming Teachers*, updating Vivian Paley's *White Teacher* and reworking Christine Sleeter's multicultural research on White teachers' race-evasive identities, moves discussions on White teacher identity toward a second wave of race-visible professional identity for White teachers in the present. James Jupp's book is an instruction on how to keep the democratic educational experiment on the workbench... - Roger Slee, Professor and Director of the Victoria Institute for Education, Diversity, and Life Long Learning at Victoria University, Melbourne James Jupp thoughtfully explicates the complexity of the social justice literature in education related to race, class, culture, language, gender and other differences in classrooms. Jupp is one of the leading scholars in education who challenges static notions of difference and opens up new curriculum spaces for a second wave of critical race work. Challenging the field to consider more nuanced possibilities that will advance social justice in the present, Jupp provides generous readings for new intercultural alliances. Jupp's *Becoming Teachers of Inner-city Students* offers a fresh understanding for those who are looking for new ways to understand teachers' lives and professional identities. - Patrick Slattery, Professor of Curriculum, Texas A&M University Jupp does the hard work, here, of understanding where we have been in conceptualizing the racial identities of White teachers. And then he does something harder. With abundant intelligence, courage, and generosity, Jupp opens up new pathways for our thinking and feeling and action. Read this book. - Timothy Lensmire, Associate Professor of Curriculum & Instruction, University of Minnesota

MERLYN'S MIND

iUniverse Merlyn's Mind completes the original trilogy of segmented story-dreams by the sixth century Merlyn, the Scotsman. The Present, real time story-dream brothers, Robert the poet and Richard the writer, continue their theoretical discussions in real time from May 2007 into late February 2008. The Past, with Grandma's Stories begin with Lady Allowyn and Sir Geoffrey in the sixteenth century and works her way into the twentieth century where Grandma Earth ends her genealogical narratives with the nineteen year olds Robert and Richard Graystone and their future wives, Connie and Cindy Bleacher, at the dining room table celebrating the late FDR's January birthday with their respective parents and grandparents, first in 1960, then again in 1961. Thus, old Grandma completes word-filled human snapshots, fruitfully linking the Graystone and Bleacher generations from 12,000 years ago in the first book to the present, 2008, in the third book. Merlyn's suggestive Future, titled 'Pouch Text,' concludes with all the major characters alive but one. The family group (a mixture of human beings and their physically and mentally human-like marsupial counterparts from HomePlanets across the Milky Way galaxy) focus on raising seven year old Diplomat, a hybrid of both species and cultures, on Earth.

LEO MELAMED

ESCAPE TO THE FUTURES

John Wiley & Sons *Acclaim for Leo Melamed* *Escape to the Futures* "A well-written, fascinating memoir of a remarkable man of many parts, who arrived in the United States at age 9, fleeing the Holocaust. Almost single-handedly, he transformed a minor commodity exchange into the leading futures market in the world. His influence was and remains worldwide." —Milton Friedman Senior Research Fellow Hoover Institution, Stanford University "There are only a few people who have revolutionized big portions of the business world. Warren Buffett did it in investing, Bill Gates in software. Leo Melamed, author of this book, is in that same league. He truly revolutionized futures trading in the United States, and in the world. This book tells how." —Ambassador Clayton Yeutter Past President of the Chicago Mercantile Exchange Former U.S. Trade Representative "A grizzled old Merc trader once assured me that nobody ever lost by being long on Leo. Why that's so, this endlessly fascinating personal history makes clear. It shows how an immigrant boy, after surviving unimaginable horrors, drew on the 'elan, combativeness, and sophisticated conviction' learned from his equally remarkable father to build the CME and to lay the foundations of the modern, Chicago-based, financial services industry." — Merton H. Miller 1990 Nobel Laureate Emeritus Professor University of Chicago Graduate School of Business "Leo tells it all. To say there would not have been a financial futures industry without Leo is probably only a slight exaggeration!!!" — John Damgard President Futures Industry Association "Escape to the Futures tells the remarkable story of a young boy's escape from the Nazis and the impact of his life on the financial markets of the world. It also serves as yet another poignant reminder of the immeasurable losses—in the arts, sciences, professions, and everyday life—humanity suffered because of the Holocaust." — Benjamin Meed President American Gathering of Jewish Holocaust Survivors He is one of the most powerful figures in the world of finance—a visionary who pioneered the modern futures industry and launched the International Monetary Market (IMM). Yet, Leo Melamed was not born to wealth and influence. His is an extraordinary rags-to-riches tale of intelligence, drive, savvy, timing, and the overpowering force of a uniquely charismatic personality. Now the inside story of the remarkable life and career of Leo Melamed is revealed in this long-awaited autobiography. A Holocaust survivor, Leo Melamed had barely begun the first grade in 1939 when he and his parents fled their native Poland one step ahead of the oncoming Nazi juggernaut. Crossing Siberia en route to a brief stay in Japan—just months before Pearl Harbor—the family arrived in the United States to begin life anew. They settled in Chicago, where young Leo became a product of the inner city and embraced his new country and its culture. Seeking part-time employment while attending law school, Leo Melamed answered a classified ad that would change his life. Hired by what he presumed was a law firm named Merrill, Lynch, Pierce, Fenner & Bean, he found himself on the floor of the Chicago Mercantile Exchange. "I was Alice stepping through the Looking Glass into a world of not just one Mad Hatter, but hundreds. The shouting among the traders, the movement of their bodies and hands, captivated me like nothing before. . . there was a life force on that floor that was magical and exciting, and though I didn't understand what was going on, I wanted to be a part of it." Leo Melamed became much more than just a part of it. From modest beginnings as a pork belly trader, he led the Chicago Merc for the next quarter of a century, introducing finance to an industry that was the exclusive domain of agriculture. As his reputation as a financial genius grew, so did the tales of his larger-than-life personality. In *Leo Melamed: Escape to the Futures*, you'll meet the man behind the legend. Written with the assistance of award-winning journalist Bob Tamarkin, this enthralling memoir deftly weaves intimate personal details with behind-the-scenes accounts of some of the most momentous financial events of our century—including Leo's role as advisor to the White House after the Hillary Rodham Clinton cattle futures trading episode. You'll read fascinating accounts of his dealings with political powerhouses like Bob Dole, Tip O'Neill, Dan Rostenkowski, and others. Offering penetrating insights into the workings of a multibillion dollar industry, this is a story that has as much to say about human nature as it does about the nature of today's markets. Hailed as both hero and tyrant, Leo Melamed is undeniably one of the most colorful and intriguing personalities of our time. This intimate, revealing personal account is not to be missed.

Building off its predecessor: *Teaching Race and Anti-Racism in Contemporary America*, this book offers complementary classroom exercises for teachers, that foster active and collaborative learning. Through reflecting on the gendered dimensions of the current political, economic, and cultural climate, as well as presenting novel lesson plans and classroom activities, *Teaching Gender and Sex in Contemporary America* is a valuable resource for educators.

GENDER INTEGRATION IN NATO MILITARY FORCES

CROSS-NATIONAL ANALYSIS

[Routledge](#) Numerous states have passed gender integration legislation permanently admitting women into their military forces. As a result, states have dramatically increased women's numbers, and improved gender equality by removing a number of restrictions. Yet despite changes and initiatives on both domestic and international levels to integrate gender perspectives into the military, not all states have improved to the same extent. Some have successfully promoted gender integration in the ranks by erasing all forms of discrimination, but others continue to impede it by setting limitations on equal access to careers, combat, and ranks. Why do states abandon their policies of exclusion and promote gender integration in a way that women's military participation becomes an integral part of military force? By examining twenty-four NATO member states, this book argues that civilian policymakers and military leadership no longer surrender to parochial gendered division of the roles, but rather support integration to meet the recruitment numbers due to military modernization, professionalization and technological advancements. Moreover, it proposes that increased pressure by the United Nations to integrate gender into security and NATO seeking standardization and consistency on the international level, and women's movements on the domestic level, are contributing to greater gender integration in the military.
