Forestry Research in Zimbabwe Proceedings of the Anniversary Seminar "Forestry Research Advances in Zimbabwe," Zimbabwe College of Forestry, Mutare, 27-31 August 1990 Resources in Education Educating Professionals for Network-Centric Organisations IFIP TC3 WG3.4 International Working Conference on Educating Professionals for Network-Centric Organisations August 23-28, 1998, Saitama, Japan Springer The short history of the International Working Conference on Educating Professionals for Network Centric Organizations is a good illustration of the tremendous rate of development of global networking, its impact and of its deep penetration into management of business, industry and administration. In 1996, when the theme and name of the conference had been set, there was yet no heavy use of networks in the fields just mentioned. However, it has been already established well enough to enable those with a visionary sense to feel that it will be an important subject and it could be an interesting theme for a conference to be held within two years. It seemed a risky decision at the time but it turned out to be very successful when conducted in 1998. It has been stated that "it took until 1997 for the business world to discover the Internet". In less than two years, the Internet and the Intranets are a vital component for running major parts of the business world. This fast pace puts some pressure on writing papers and holding a conference- effort has to be made to have meaningful contents despite the changes. A time span of 9 months between writing a paper and having it published, seemed once to be very short, but it is not so any more when referring to a dynamic issue like global networking. **Zimbabwe Journal of Educational Research ZJER. Help Your Kids with Computer Science (Key Stages 1-5) A Unique Step-by-Step Visual Guide to Computers, Coding, and Communication Dorling Kindersley Ltd** Perfect for home learning, this visual guide to computers, the Internet, and social media uses step-by-step diagrams and graphics to explore how kids can get the most from computers while staying safe. Covering everything from data to digital life, from computer coding to cyber attacks, this unique guide gives parents and kids the most up-to-date and comprehensive facts and information in a visually appealing way. It examines the technical aspects of computers, such as how they function, the latest digital devices and software, and how the Internet works. It also builds the confidence of parents and kids when facing challenges such as staying safe online, digital etiquette, and how to navigate the potential pitfalls of social media. Jargon-free language helps to explain difficult and potentially dread-inducing concepts such as hacking, Bitcoin, and malware, while colorful graphics help make learning about the world of computer science exciting. For those who want to make the most out of the digital world, Help Your Kids with Computer Science is the perfect platform to discover more. Series Overview: DK's bestselling Help Your Kids With series contains crystal-clear visual breakdowns of important subjects. Simple graphics and jargon-free text are key to making this series a user-friendly resource for frustrated parents who want to help their children get the most out of school. **Pratiyogita Darpan** Pratiyogita Darpan (monthly magazine) is India's largest read General Knowledge and Current Affairs Magazine. enterprises, and machines connect and interact with each other in the industrial digital ecosystem. Smart and connected factories, in which all the machinery transmits real-time data, enable industrial data analytics for improving operational efficiency, productivity, and industrial processes, thus creating new business opportunities, asset utilization, and connected services. IIoT leads factories to step out of legacy environments and arcane processes towards open digital industrial ecosystems. Innovations in the Industrial Internet of Things (IIoT) and Smart Factory is a pivotal reference source that discusses the development of models and algorithms for predictive control of industrial operations and focuses on optimization of industrial operational efficiency, rationalization, automation, and maintenance. While highlighting topics such as artificial intelligence, cyber security, and data collection, this book is ideally designed for engineers, manufacturers, industrialists, managers, IT consultants, practitioners, students, researchers, and industrial industry professionals. **Handbook of Research on Software Engineering and Productivity Technologies: Implications of Globalization Implications of Globalization IGI Global** "This book provides integrated chapters on software engineering and enterprise systems focusing on parts integrating requirements engineering, software engineering, process and frameworks, productivity technologies, and enterprise systems"--Provided by publisher. **IGCSE Information and Communication Technology** Please note this title is still being made available for students sitting their examinations in 2015. Our second edition supports the updated syllabus for first examination 2016. Textbook and free CD-ROM, endorsed by Cambridge International Examinations for the IGCSE syllabus in Information and Communication Technology (0417) for final examination 2015. - Written by experienced examiners and teachers, who bring a wealth of theoretical knowledge and practical experience to both the book and the CD - Ensures that students are fully prepared for both the written theory paper as well as the two practical papers. - Each Section of the syllabus is fully covered in the text book, with clear explanations and plenty of tasks and activities. - The CD contains source files for the tasks and activities, as well as examination-style questions (with model answers) and a glossary. **ILRI 1995 Building a Global Research Institute ILRI (aka ILCA and ILRAD)** The importance of livestock; Board of trustees; ILRI's donors in 1995; ILRI's addresses; A global livestock research institute; Moves towards a new institute; Major trends; Developing a medium-term plan; Broadening horizons; Collaboration and integration the names of the game; Live vaccine delivery systems for east coast fever; What is a live delivery system; Why live delivery systems; Progress to date; Attacking the schizont form; Where to now; Mice and cattle immune systems like chalk and cheese; Helper T cells in mice and cattle; Vital reminders; Interpreting the language of parasites; Starting from the parasite; Starting with the host; Promise for the future; GIS - a research tool and beyond; Controlling tick-borne diseases in Zimbabwe; Maximising human benefits, minimising environmental costs; GIS in production-system research; Tools for research and development; Women dairy farmers in Africa; Who should extension workers by talking to; Who does the work; What are the benefits of dairying; Implications for dairy development; Ploughing with cows feasible in East African highlands; Ploughing with cows technically feasible; Farmers test dairy-draft cows on farms; Farmers emphasise milk yields; Moving into new areas with new partners; Toxin-degrading microbe release multi-purpose tree feed potential; To much, too soon; Gradual adaptation; Another string to the farmers' bow; Biodiversity - the future of world food production; Knowing what to conserve; Knowing what has been collected; Knowing what it can do; Keeping it clean; The future of world food production; A library on a disc; A technology for today; ILRI's CD-ROMs; Early days; ILRI programme and project activities in 1995; ILRI senior staff in 1995; Post-doctoral associates and graduate fellows at ILRI in 1995; Publications by ILRI staff in 1995; Financial summary. **Zimbabwe--the First Decade Research Undertaken Recently in Eastern and Southern Africa Information and Communication Technologies for Development. Since the first edition was published in 2009, the book has been adopted for use at leading universities around the world, including Harvard University, Carnegie-Mellon University, the University of Washington, the University of Toronto, HiOA (Norway), KTH (Sweden), Tel Aviv University (Israel), and many others. Chapters cover a broad range of topics relevant to the collection and analysis of HCI data, going beyond experimental design and surveys, to cover ethnography, diaries, physiological measurements, case studies, crowdsourcing, and other essential elements in the well-informed HCI researcher's toolkit. Continual technological evolution has led to an explosion of new techniques and a need for this updated 2nd edition, to reflect the most recent research in the field and newer trends in research methodology. This Research Methods in HCI revision contains updates throughout, including more detail on statistical tests, coding qualitative data, and data collection via mobile devices and sensors. Other new material covers performing research with children, older adults, and people with cognitive impairments. Comprehensive and updated guide to the latest research methodologies and approaches, and now available in EPUB3 format (choose any of the ePub or Mobi formats after purchase of the eBook). Expanded discussions of online datasets, crowdsourcing, statistical tests, coding qualitative data, laws and regulations relating to the use of human participants, and data collection via mobile devices and sensors New material on performing research with children, older adults, and people with cognitive impairments, two new case studies from Google and Yahoo!, and techniques for expanding the influence of your research to reach non-researcher audiences, including software developers and policymakers **Zimbabwe Research Index** Register of current research in Zimbabwe. **Cambridge Papers Good Press** "Cambridge Papers" by W. This focus has been magnified by the need to consider tropical cyclones in the context of other global development agendas, that includes the 2030 Agenda for Sustainable Development and its inseparable 17 Sustainable Development Goals (SDGs), the Paris Agreement, the Sendai Framework for Disaster Risk Reduction and Habitat III's New Urban Agenda. The ambitious SDGs challenge global and community leaders to make sure development addresses the nexus among poverty, inequality and employment creation, as well as care for the earth and its natural resources and biodiversity. The SDGs further present an agenda to eradicate hunger, bring quality education and sustain water and sanitation. The infrastructure development, human settlements, sustainable consumption and production, climate change, biodiversity and the ocean (blue) economy agendas are also pitched. Lastly, the 2030 Agenda for Sustainable Development encourages partnerships on delivering various programmes and projects at all spatial levels. However, as tropical cyclones continue to make multiple landfalls and ravage Southern Africa and other parts of the world, the achievement of the 2030 Agenda for Sustainable Development is threatened. To this end, this book addresses this gap by documenting the implications of tropical cyclones, drawing examples and case studies from recent tropical cyclones such as cyclone Idai and cyclone Kenneth that resulted in catastrophic impacts in 2019. The book comes as part of a series with three volumes. The other volumes include "Cyclones in Southern Africa Vol. 1: Interfacing the Catastrophic Impact of Cyclone Idai with SDGs in Zimbabwe" and "Cyclones in Southern Africa Vol 2: Foundational and Fundamental Topics". Given the foregoing, the book is suitable as a read for several professionals and disciplines such as tourism and hospitality studies, economics, sustainable development, development studies, environmental sciences, arts, geography, life sciences, politics, planning and public health. **Science, Technology & Research for Development in the SADC Region Status, Needs, Prospects, and Challenges English as a Global Language Cambridge University Press** David Crystal's classic English as a Global Language considers the history, present status and future of the English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language. **Computer Education ICT for GCSE Oxford University Press** This is an illustrated summary book in full colour for classroom use and for examination revision, covering the requirements of GCSE Specifications from September 2001 in information technology/computing. **Popular Scientific Recreations in Natural Philosophy, Astronomy, Geology, Chemistry BoD - Books on Demand** Reproduction of the original: Popular Scientific Recreations in Natural Philosophy, Astronomy, Geology, Chemistry by Gaston Tissandier **Innovative partnerships ILRI (aka ILCA and ILRAD) The Powder of Sympathy Wildside Press LLC** Includes "An Oxford Symbol," "Scapegoats," "To a New Yorker a Hundred Years Hence," "A Call of the Author," "Mr. Pepy's Christmases," and many more stories. **Introduction to Computer Security Addison-Wesley Professional** Introduction to Computer Security draws upon Bishop's widely praised Computer Security: Art and Science, without the highly complex and mathematical coverage that most undergraduate students would find difficult or unnecessary. The result: the field's most concise, accessible, and useful introduction. Matt Bishop thoroughly introduces fundamental techniques and principles for modeling and analyzing security. Readers learn how to express security requirements, translate requirements into policies, implement mechanisms that enforce policy, and ensure that policies are effective. Along the way, the author explains how failures may be exploited by attackers--and how attacks may be discovered, understood, and countered. Supplements available including slides and solutions. **The Zimbabwe Science News A Journal of the Zimbabwe Scientific Association ICIW2012-Proceedings of the 7th International Conference on Information Warfare and Security ICIW2012 Academic Conferences Limited Cambridge IGCSE® and O Level Computer Science Programming Book for Python Cambridge University Press** This resource is written to follow the updated IGCSE® Computer Science syllabus 0478 with examination from June and November 2016. Cambridge IGCSE® and O Level Computer Science Programming Book for Python accompanies the Cambridge IGCSE and O Level Computer Science coursebook, and is suitable for students and teachers wishing to use Python in their studies. It introduces and develops practical skills to guide students in developing coding solutions to the tasks presented in the book. Starting from simple skills and progressing to more complex challenges, this book shows how to approach a coding problem using Structure Diagrams and Flow Charts, explains

programming logic using pseudocode, develops Python programming skills and gives full solutions to the tasks set. **Vocational Education and Training in Zimbabwe The Role of Private Sector Provision in the Context of Economic Reform Cambridge International AS and A Level Computer Science Coursebook World Social Report 2020 Inequality in a Rapidly Changing World United Nations** This report examines the links between inequality and other major global trends (or megatrends), with a focus on technological change, climate change, urbanization and international migration. The analysis pays particular attention to poverty and labour market trends, as they mediate the distributional impacts of the major trends selected. It also provides policy recommendations to manage these megatrends in an equitable manner and considers the policy implications, so as to reduce inequalities and support their implementation. **ACCA P7 Advanced Audit and Assurance (International) BPP Learning Media** BPP Learning Media is an ACCA Approved Content Provider.
