Closing the Gender Pay Gap in Medicine

A Roadmap for Healthcare Organizations and the Women Physicians Who Work for Them

Springer Nature Women now represent over half of medical school matriculants, almost half of residents and fellows, and over a third of practicing physicians nationally. Despite considerable representation among the physician workforce, women are paid 75 cents on the dollar compared with their male counterparts after accounting for specialty, geography, time in practice, and average hours per week worked. This pay gap is significantly greater than the one reported for US women workers as a whole and has shown little improvement over time. While much has been written about the problem, a robust discussion about how to rectify the situation has been missing from the conversation. Closing the Gender Pay Gap in Medicine is the first comprehensive assessment of how cultural expectations and compensation methodologies in medicine work together to perpetuate salary disparities between men and women physicians. Since the gender gap reflects a convergence of forces within our healthcare enterprises, achieving pay equity can be

an overwhelming undertaking for institutions and their leaders. However, compensation is foremost a business endeavor. Therefore, a roadmap for operationalizing equity within the finance, human resources, and compliance structures of our organizations is critical to eliminating disparities. The roadmap described in this book breaks down the component parts of compensation methodology to reveal their unintentional impact on salary equity and lays out processes and procedures that support new approaches to generate fair and equitable outcomes. Additionally, the roadmap is anchored in change management principles that address institutional culture and provide momentum toward salary equity. The book begins with a review of the evidence on the gender pay gap in medicine. The following chapter discusses how gender-based differences in performance assessments, specialty choice, domestic responsibilities, negotiation, professional resources, sponsorship, and clinical productivity accumulate across women's careers in medicine and impact evaluation, promotion, and therefore compensation in the healthcare workplace. The next two chapters focus, respectively, on how compensation is determined - highlighting potential pitfalls for pay equity - and regulatory and legal considerations. Chapters 5 and 6 explore organizational infrastructure, salary data collection and analysis, and culture change strategies necessary to rectify compensation inequities. Chapter 7 offers a detailed account of one medical institution's successful journey to achieve salary equity. The book's final chapter emphasizes that closing the gender pay gap is at its essence a business endeavor and recommends that organizations assess progress and cost with the same attention, rigor, and regularity as afforded other operating expenses. *Closing the Gender Pay Gap in Medicine* offers a detailed roadmap for healthcare organizations seeking to close the gender pay gap among their physician workforce. This first-of-its-kind book will assist institutions plan courses of action and identify potential pitfalls so they can be understood and mitigated. It will also prove a valuable resource for transformational leadership and systems-based change critical to attaining compensation equity.

Getting Evidence into Education

Evaluating the Routes to Policy and Practice

Routledge Worldwide, there has been considerable progress in the quality of research evidence generated for use in education, but not the equivalent growth in knowledge of how best to get this evidence into actual use. Yet with far-reaching implications, all of education is damaged when persuasive but poor-quality evidence has widespread influence, or good research lies unused. Focused on the work of the Durham University Evidence Centre for Education, *Getting Evidence into Education* addresses this problem, examining what can be done to improve the take-up of suitable research evidence and inform the public service of education. Containing a variety of case studies, from evidence-based policies for early childhood education in

Brazil, to the use of evidence on contextualized admissions to Scottish universities, the volume explores a variety of different ways to approach the problem, addressing the questions: What is the existing evidence on different approaches to getting research evidence into use? What are the factors which influence the uptake of high-quality research evidence by policy or practice? Which are the most effective pathways for evidence-into-use in particular contexts? Considering both the practical and ethical implications, the book builds towards key recommendations for the research community, practitioner bodies and policy-makers and advisors, directing them on how to communicate better with each other for the benefit of everyone.

BBC Annual Report and Accounts

2000/2001

Does America Need More Innovators?

MIT Press A critical exploration of today's global imperative to innovate, by champions, critics, and reformers of innovation. Corporate executives, politicians, and school board leaders agree—Americans must innovate. Innovation experts fuel this demand with books and services that instruct aspiring innovators in best practices, personal habits, and workplace cultures for fostering innovation. But critics have begun to question the unceasing promotion of innovation, pointing out its gadget-centric shallowness, the lack of diversity among innovators, and the unequal distribution of innovation's burdens and rewards. Meanwhile, reformers work to make the training of innovators more inclusive and the outcomes of innovation more responsible. This book offers an overdue critical exploration of today's global imperative to innovate by bringing together innovation's champions, critics, and reformers in conversation. The book presents an overview of innovator training, exploring the history, motivations, and philosophies of programs in private industry, universities, and government; offers a primer on critical innovation studies, with essays that historicize, contextualize, and problematize the drive to create innovators; and considers initiatives that seek to reform and reshape what it means to be an innovator. Contributors Errol Arkilic, Catherine Ashcraft, Leticia Britos Cavagnaro, W. Bernard Carlson, Lisa D. Cook, Humera Fasihuddin, Maryann Feldman, Erik Fisher, Benoît Godin, Jenn Gustetic, David Guston, Eric S. The Communications Act of 1934, as Amended

Building Communities of Engaged Readers

Reading for pleasure

Routledge Reading for pleasure urgently requires a higher profile to raise attainment and increase children's engagement as self-motivated and socially interactive readers. Building Communities of Engaged Readers highlights the concept of 'Reading Teachers' who are not only knowledgeable about texts for children, but are aware of their own reading identities and prepared to share their enthusiasm and understanding of what being a reader means. Sharing the processes of reading with young readers is an innovative approach to developing new generations of readers. Examining the interplay between the 'will and the skill' to read, the book distinctively details a reading for pleasure pedagogy and demonstrates that reader engagement is strongly influenced by relationships between children, teachers, families and communities. Importantly it provides compelling evidence that reciprocal reading communities in school encompass: a shared concept of what it means to be a reader in the 21st century; considerable teacher and child knowledge of children's literature and other texts; pedagogic practices which acknowledge and develop diverse reader identities; spontaneous 'inside-text talk' on the part of all members; a shift in the focus of control and new social spaces that encourage choice and children's rights as readers. Written by experts in the literacy field and illustrated throughout with examples from the project schools, it is essential reading for all those concerned with improving young people's enjoyment of and attainment in reading.

Model Rules of Professional Conduct

American Bar Association The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given

situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Standards for the Clinical Care of Adults with Sickle Cell Disease in the UK

Minerals Yearbook

Area Reports: International Review 2014 Africa and the Middle East

Government Printing Office This edition of the U.S. Geological Survey (USGS) Minerals Yearbook discusses the performance of the worldwide minerals and materials industries during year 2013 and provides background information to assist in interpreting that performance. These annual reviews are designed to provide timely statistical data on mineral commodities in various countries. This volume covers data from Asia and the Pacific. Each report includes sections on government policies and programs, environmental issues, trade and production data, industry structure and ownership, commodity sector developments, infrastructure, and a summary outlook. Audience: Government employees and contractors, as well as businesses and employees, all working in mineral-related trades, especially with interests in statistics about mineral commodities overseas, will find this resource invaluable.

Enhancing Teacher Education, Development, and Evaluation Lessons Learned from Educational Reform

Routledge Enhancing Teacher Education, Development, and Evaluation examines the complex role that recent educational reforms have played in the teaching profession. The failure of programs like Race to the Top to benefit teaching and learning outcomes has yielded many questions about what went wrong and how a research-based plan for true systemic progress could actually work. Covering inaccurate narratives about schools and student achievement, evidence for teacher effectiveness, and the history and repercussions of Race to the Top, this book culminates with a proposal for future research and policy initiatives that more accurately and more equitably prioritize the measurement and improvement of teaching and learning. Five concise yet comprehensive chapters invite teacher and principal educators, teachers and school leaders in training, district administrators, policymakers, and other stakeholders to better understand the implications of and possible paths beyond misguided reform efforts. An overview of the recent past and an inspiration for the immediate future, this definitive analysis offers insights into how more reasonable, empirically derived strategies will ultimately foster more successful schools.

Informed is best

How to spot fake news about your pregnancy, birth and baby

Pinter & Martin From the moment you share the news that you are pregnant or have a new baby it feels like everyone becomes an expert. Did you see that headline? Did you hear that story on TV? Have you heard the latest about what they say is best? In a world overflowing with information telling you what is best for you and your baby, making decisions can feel overwhelming. Who do you trust? Who is telling the truth? And how do you know if what they are saying is right for you? How?

By becoming your own expert in sorting the media spin and politics from the actual facts and data. This isn't a book that is going to tell you which decisions to make, or that there is ever one right answer. It is not going to tell you that the same thing is always best for everyone. Instead this is a guide to help you evaluate information and evidence to decide what is right for you, your body and your baby. In three main parts it will firstly open your eyes to how information is shared in the media and how this can affect our thinking and decision making. Next it will help you spot who is funding, leading and promoting research and how this can affect the content of what is shared. Finally it will talk you through reading, understanding and evaluating evidence for yourself across topics in pregnancy, birth and caring for babies. You'll learn how to spot weaknesses in methods used, how to determine the real risk for you and your baby, and how wider context and other factors can influence what research means for you. Information is power. Making your own decisions that are right for you is empowering. #Informed is best.

Diálogos Interdisciplinares sobre a Música Brasileira

Editora Oficina Universitária Nas últimas décadas, a música brasileira tornou-se objeto de pesquisa de diferentes áreas das Humanidades. Pesquisadores e pesquisadoras da Musicologia, História, Sociologia e da Comunicação estão reunidos em *Diálogos Interdisciplinares sobre a Música Brasileira* e nos ensinam variadas formas de abordagem teórica e metodológica da música, enfocando as transformações ocorridas propriamente na linguagem musical, as relações de dependência entre músicos de concerto com círculos das elites econômicas e culturais em São Paulo, os músicos de rua na contemporaneidade, a música como expressão das dores, alegrias e lutas da juventude periférica numa sociedade desigual e discriminatória, as transformações da indústria fonográfica desde os anos 1980, o crescimento da pirataria de discos, o desenvolvimento dos meios digitais de produção e difusão da música. A presente coletânea espera contribuir para a reflexão mais ampla e sob diferentes pontos de vista sobre a música brasileira e suas relações com grupos sociais, o mercado e a política.

Life and Moral Education in Greater China

Routledge Arguing for life, moral and values education as a bedrock for the original goals of school education, this monograph explores how life and values education is conceptualised and imparted in Greater China. Under a globalized, transnational, and technological world, where there has been an increase in people's mobility, in information and cultural exchanges, there is also a growing emphasis on personal and professional ethics. Against this context, life, moral and values education has gained attention for its impact on shaping students' characters as future citizens.

However, the cultivation of these values is made deeply diversified and complex by varying interpretations of "life education" and "values education" across societies, given that different societies are influenced by different socio-cultural traditions, educational ideologies and religious beliefs. The means and approaches towards life education also vary vastly from formal school subjects, school-based programmes as well as teachers and peers' role modelling, community services, extra-curricular activities, school discipline, charity work, pastoral care, and school ethos. Recognising this inherent diversity and complexity in the approach to and the dissemination of life education, the contributors to this volume survey the practice of life education in Greater China so far, suggesting that life education is most effective when it is "diversified, dynamic and developmental across contexts". This book will provide the opportunity for engaging in important and serious debates about the future and the values that will underpin it and will prove of special interest to scholars and practitioners working on education policies curriculum development and teacher education in Greater China.

Global Innovation Index 2020

Who Will Finance Innovation?

WIPO The Global Innovation Index 2020 provides detailed metrics about the innovation performance of 131 countries and economies around the world. Its 80 indicators explore a broad vision of innovation, including political environment, education, infrastructure and business sophistication. The 2020 edition sheds light on the state of innovation financing by investigating the evolution of financing mechanisms for entrepreneurs and other innovators, and by pointing to progress and remaining challenges - including in the context of the economic slowdown induced by the coronavirus disease (COVID-19) crisis.

The Control of Communicable Diseases

Report of a Committee of the American Public Health Association Managing the Risks of Extreme

Events and Disasters to Advance Climate Change Adaptation

Special Report of the Intergovernmental Panel on Climate Change

Cambridge University Press This Intergovernmental Panel on Climate Change Special Report (IPCC-SREX) explores the challenge of understanding and managing the risks of climate extremes to advance climate change adaptation. Extreme weather and climate events, interacting with exposed and vulnerable human and natural systems, can lead to disasters. Changes in the frequency and severity of the physical events affect disaster risk, but so do the spatially diverse and temporally dynamic patterns of exposure and vulnerability. Some types of extreme weather and climate events have increased in frequency or magnitude, but populations and assets at risk have also increased, with consequences for disaster risk. Opportunities for managing risks of weather- and climate-related disasters exist or can be developed at any scale, local to international. Prepared following strict IPCC procedures, SREX is an invaluable assessment for anyone interested in climate extremes, environmental disasters and adaptation to climate change, including policymakers, the private sector and academic researchers.

TIME'S NOW for Women Healthcare Leaders

A Guide for the Journey

CRC Press TIME'S NOW for Women Healthcare Leaders: A Guide for the Journey Women comprise over 80 percent of healthcare frontline employees, but they often hit the proverbial glass ceiling. Only 30 percent of healthcare C-suite Executives and less than 15% of CEOs are women. Moreover, while 51 percent of medical students are women, only 16 percent of the Department Chairs and Deans are women. Clearly, women are facing barriers to achieving their potential, limiting their ability to add their unique talents and skills to the tables of leadership. The author provides extensive detail on these barriers and approaches to their solutions. This is a practical "how-to" book that will help women in healthcare envision their ability to contribute and inspire them to lead. The author sees this as not only helping women, but also facilitating solving healthcare's myriad problems, improving health and

benefitting society. *** This book is a must-read primer for women seeking leadership. It is practical, thought provoking, and carefully researched, addressing why women's leadership is important and how women can be better leaders. Gabow's approach capitalizes on interviews with strong women leaders. She uses the notions she learned from the interviews coupled with research from the literature to create an easy-to-read, motivating, and challenging book for women and men! Nancy Agee President and CEO Carilion Clinic Past Chair American Hospital Association TIME'S NOW for Women Healthcare Leaders is filled with powerful examples of how women have overcome multiple obstacles and prevailed on their leadership journeys. It is a MUST read for women and men about the obstacles to be overcome, potholes to avoid, and the shout outs to be given to women who every minute, every hour, every day are committed to human caring. It has captured the heart and spirits of women from diverse backgrounds who have and continue to demonstrate their commitment to making society a better place for all! Linda Burnes Bolton, DrPH, RN, FAAN Senior Vice President and System Chief Equity Officer Cedars Sinai Health System This highly engaging book addresses the relative dearth of women leaders in healthcare through thoughtful assessment of how leaders' values and actions can improve healthcare within healthcare organizations and systems. Dr. Gabow, an exceptional leader whose relentless passion for excellence for patients served by Denver Health earned her national renown, combines insightful observations from her own path with current statistics about women in medicine, experiences of other successful women leaders, and mentoring skills to offer wise counsel to all current and future leaders. The thoughtful distillation of practical wisdom offered here make this book a unique contribution and highly relevant to healthcare in America today. Carolyn Clancy, M.D. Past Director, Agency for Healthcare Research and Quality This insightful book is full of personal stories, honest reflections, and data-driven guidance from and about women leaders. It serves as a wonderful resource for those motivated to advance diverse and inclusive organizations. Karen DeSalvo, M.D., MPH Chief Health Officer, Google Health Past Acting Assistant Secretary for Health, US HHS National Coordinator for Health Information Technology, US HHS

Orthogeriatrics

Springer Nature This new open access edition supported by the Fragility Fracture Network aims at giving the widest possible dissemination on fragility fracture (especially hip fracture) management and notably in countries where this expertise is sorely needed. It has been extensively revised and updated by the experts of this network to provide a unique and reliable content in one single volume. Throughout the book, attention is given to the difficult question of how to provide best practice in countries where the discipline of geriatric medicine is not well established and resources for secondary prevention are scarce. The revised and updated chapters on the epidemiology of hip fractures, osteoporosis, sarcopenia, surgery, anaesthesia, medical management of frailty, peri-operative complications, rehabilitation and nursing are supplemented by six new chapters. These include an overview of the multidisciplinary approach to fragility fractures and new contributions on pre-hospital

care, treatment in the emergency room, falls prevention, nutrition and systems for audit. The reader will have an exhaustive overview and will gain essential, practical knowledge on how best to manage fractures in elderly patients and how to develop clinical systems that do so reliably.

Poverty and Shared Prosperity 2018

Piecing Together the Poverty Puzzle

World Bank Publications The World Bank Group has two overarching goals: End extreme poverty by 2030 and promote shared prosperity by boosting the incomes of the bottom 40 percent of the population in each economy. As this year's Poverty and Shared Prosperity report documents, the world continues to make progress toward these goals. In 2015, approximately one-tenth of the world's population lived in extreme poverty, and the incomes of the bottom 40 percent rose in 77 percent of economies studied. But success cannot be taken for granted. Poverty remains high in Sub-Saharan Africa, as well as in fragile and conflict-affected states. At the same time, most of the world's poor now live in middle-income countries, which tend to have higher national poverty lines. This year's report tracks poverty comparisons at two higher poverty thresholds—\$3.20 and \$5.50 per day—which are typical of standards in lower- and upper-middle-income countries. In addition, the report introduces a societal poverty line based on each economy's median income or consumption. Poverty and Shared Prosperity 2018: Piecing Together the Poverty Puzzle also recognizes that poverty is not only about income and consumption—and it introduces a multidimensional poverty measure that adds other factors, such as access to education, electricity, drinking water, and sanitation. It also explores how inequality within households could affect the global profile of the poor. All these additional pieces enrich our understanding of the poverty puzzle, bringing us closer to solving it. For more information, please visit worldbank.org/PSP

The Fourth Industrial Revolution

Penguin UK The founder and executive chairman of the World Economic Forum on how the impending technological revolution will change our lives We are on the brink of the Fourth Industrial Revolution. And this one will be unlike any other in human history. Characterized by new technologies fusing the physical, digital and biological worlds, the Fourth Industrial Revolution will impact all disciplines, economies and industries - and it will do so at an unprecedented rate. World Economic Forum data predicts that by 2025 we will see: commercial use of nanomaterials 200 times stronger than steel and a million times thinner than human hair; the first transplant of a 3D-printed liver; 10% of all cars on US roads being driverless; and much more besides. In The Fourth Industrial Revolution, Schwab outlines the key technologies driving this revolution, discusses the major impacts on governments, businesses, civil society and individuals, and offers bold ideas for what can be done to shape a better future for all.

Book of Abstracts of the 70th Annual Meeting of the European Federation of Animal Science Ghent, Belgium, 26-30 August 2019

Wageningen Academic Publishers This Book of Abstracts is the main publication of the 70th Annual Meeting of the European Federation of Animal Science (EAAP). It contains abstracts of the invited papers and contributed presentations of the sessions of EAAP's eleven Commissions: Animal Genetics, Animal Nutrition, Animal Management and Health, Animal Physiology, Cattle Production, Sheep and Goat Production, Pig Production, Horse Production and Livestock Farming Systems, Insects and Precision Livestock Farming.

The Lottery

The Creative Company A seemingly ordinary village participates in a yearly lottery to determine a sacrificial victim.

The GCHQ Puzzle Book

Michael Joseph **** WINNER OF 'STOCKING FILLER OF THE YEAR AWARD' GUARDIAN**
 ** Pit your wits against the people who cracked Enigma in the official puzzle book from Britain's secretive intelligence organisation, GCHQ. 'A fiendish work, as frustrating, divisive and annoying as it is deeply fulfilling: the true spirit of Christmas' Guardian 'Surely the trickiest puzzle book in years. Crack these fiendish problems and Trivial Pursuit should be a doddle' Daily Telegraph If 3=T, 4=S, 5=P, 6=H, 7=H ...what is 8? What is the next letter in the sequence: M, V, E, M, J, S, U, ? Which of the following words is the odd one out: CHAT, COMMENT, ELF, MANGER, PAIN, POUR? GCHQ is a top-secret intelligence and security agency which recruits some of the very brightest minds. Over the years, their codebreakers have helped keep our country safe, from the Bletchley Park breakthroughs of WWII to the modern-day threat of cyberattack. So it comes as no surprise that, even in their time off, the staff at GCHQ love a good puzzle. Whether they're recruiting new staff or challenging each other to the toughest Christmas quizzes and treasure hunts imaginable, puzzles are at the heart of what GCHQ does. Now they're opening up their archives of decades' worth of codes, puzzles and challenges for everyone to try. In this book you will find: - Tips on how to get into the mindset of a codebreaker - Puzzles ranging in difficulty from easy to brain-bending - A competition section where we search for Britain's smartest puzzler Good luck! 'Ideal for the crossword enthusiast' Daily Telegraph

Breaking the War Habit

The Debate over Militarism in American Education

University of Georgia Press The Pentagon currently spends around \$1.4 billion per year on recruiting and hundreds of millions annually on other marketing initiatives intended to convince the public to enlist—costly efforts to ensure a steady stream of new soldiers. The most important part of this effort is the Pentagon’s decades-long drive to win over the teenage mind by establishing a beachhead in American high schools and colleges. Breaking the War Habit provides an original consideration of the militarization of schools in the United States and explores the prolonged battle to prevent the military from infiltrating and influencing public education. Focused on the Junior Reserve Officer Training Corps (JROTC) in high schools and the Reserve Officer Training Corps (ROTC) in higher education, the authors expose the pervasive influence and economic leverage bestowed on the military as it recruits children and youth. Breaking the War Habit highlights those who have resisted the privileged status of the military and successfully challenged its position on campuses across the country. A “scrappy band of activists,” the Committee on Militarism in Education (CME) initiated this work following World War I, publicizing the rise of school militarism and its implications. For two decades, CME’s activism shaped public debate over the meaning of militarism in U.S. society and education settings, resulting in numerous victories against ROTC and JROTC programs. The authors also explore how, since the mid-1970s, military “counter-recruiters” have contested military recruiters’ largely unchecked access to high school students, raising awareness of a “school-to-military pipeline” that concentrates recruitment in urban (predominantly Black and low-income) regions.

Play = Learning

How Play Motivates and Enhances Children's Cognitive and Social-Emotional Growth

Oxford University Press In Play=Learning, top experts in child development and learning contend that in over-emphasizing academic achievement, our culture has forgotten about the importance of play for children's development.

School, Family, and Community Partnerships

Your Handbook for Action

Corwin Press Strengthen family and community engagement to promote equity and increase student success! When schools, families, and communities collaborate and share responsibility for students' education, more students succeed in school. Based on 30 years of research and fieldwork, this fourth edition of a bestseller provides tools and guidelines to use to develop more effective and equitable programs of family and community engagement. Written by a team of well-known experts, this foundational text demonstrates a proven approach to implement and sustain inclusive, goal-oriented programs. Readers will find: Many examples and vignettes Rubrics and checklists for implementation of plans CD-ROM complete with slides and notes for workshop presentations

Periodization

Theory and Methodology of Training

Human Kinetics Learn how to train for maximum gains with Periodization: Theory and Methodology of Training. Guided by the expertise of Tudor O. Bompa, the pioneer of periodization training, and leading periodization researcher G. Gregory Haff, you'll learn how to vary the intensity and volume of training to optimize the body's ability to recover and rebuild—resulting in better performance and less risk of injury. Translated into nine languages, Periodization: Theory and Methodology of Training has become one of the major resources on periodization for sport scientists, coaches, and athletes throughout the world. Since the introduction of this groundbreaking training theory by Tudor O. Bompa in 1963, periodization has become the basis of every serious athlete's training. Now in its fifth edition, Bompa's classic text combines the concepts central to periodization and training theory with contemporary advances in sport science, physiology, and coaching. No other text discusses planning and periodization in such detail or with so many specific, practical examples from a variety of sports. With the fifth edition of Periodization, you can learn the principles, objectives, and components of a successful long-term training program and how to plan the right program to achieve your performance goals. Periodization also contains proven strategies for optimal peaking and specifics on training for better motor ability, working capacity, skill effectiveness, and psychological adaptability. Better organized and easier to read, the fifth edition of this definitive text presents the latest refinements to periodization theory: • New research on rest and restoration, specifically countermeasures used in facilitating recovery plus practical suggestions for implementation • How the use of sequential

training and delayed training effects can produce optimal performance at major competitions • A comprehensive discussion, grounded in scientific data, on applying various methods of peaking to ensure optimal performance for competition • New information on how concepts such as conjugated sequencing and summated microcycle structures can maximize strength gains and direct training • Expanded information on the development of sport performance characteristics, including speed training and sport-specific endurance Chapter summaries will help you review and reference major concepts throughout the text. Plan and document each training program with ease using the duplication-ready annual and four-year training plan charts included in the appendix. When it comes to designing programs for optimal training, Tudor Bompa's expertise is unmatched. The fifth edition of *Periodization: Theory and Methodology of Training* presents the latest refinements to Bompa's periodization theory to help you create training programs that enhance sport skills and ensure peak performance.

Living Donor Kidney

Transplantation

Current Practices, Emerging Trends and Evolving Challenges

CRC Press Living donor kidney (LDK) transplantation has become the definitive approach to the treatment of end-stage renal failure, providing a better quality of life and the best opportunity for survival when compared with dialysis or transplantation from a deceased donor. A timely compendium of the modern day practice of LDK transplantation from a group of outstanding international experts, this text explores a number of controversial aspects of this innovative new technique. Discussing in detail the current situation, the authors also focus on the responsibility of the medical community to the live kidney donor as a patient, and the potential for complacency regarding donor risk. Emphasizing the ethical principles that must dictate medical practice in LDK transplantation for the foreseeable future - voluntarism, informed consent and medical follow-up - this book comprehensively records the best practices currently available.

Support and aspiration

a new approach to special

educational needs and disability, a consultation

The Stationery Office This report unveils proposals for the biggest programme of reform in the education and health support for children with special educational needs (SEN) and disabilities in 30 years. The Government wants to fundamentally reform the SEN system to address problems including: parents having to battle to get the support their child needs; SEN statements not joining up education, health and care support; children falling between the gaps in services or having to undergo multiple assessments; multiple layers of paperwork and bureaucracy adding delays to getting support, therapy and vital equipment; confusing and adversarial assessment process, with the perceived conflict of interest where the local authority must provide SEN support as well as assess children's needs; too many children are being over-identified as SEN, preventing them from achieving their potential because teachers have lower expectations of them. The Government proposes to: include parents in the assessment process and introduce a legal right, by 2014, to give them control of funding for the support their child needs; replace statements with a single assessment process and a combined education, health and care plan so that health and social services is included in the package of support; ensure assessment and plans run from birth to 25 years old; replace the existing complicated School Action and School Action Plus system with a simpler new school-based category to help teachers focus on raising attainment; overhaul teacher training and professional development; inject greater independence from local authorities in assessments; give parents a greater choice of school and the power to set up special free schools

English as a Global Language

Cambridge University Press David Crystal's classic English as a Global Language considers the history, present status and future of the English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language.

WHO Guidelines for Indoor Air Quality

Selected Pollutants

World Health Organization This book presents WHO guidelines for the protection of public health from risks due to a number of chemicals commonly present in indoor air. The substances considered in this review, i.e. benzene, carbon monoxide, formaldehyde, naphthalene, nitrogen dioxide, polycyclic aromatic hydrocarbons (especially benzo[a]pyrene), radon, trichloroethylene and tetrachloroethylene, have indoor sources, are known in respect of their hazardousness to health and are often found indoors in concentrations of health concern. The guidelines are targeted at public health professionals involved in preventing health risks of environmental exposures, as well as specialists and authorities involved in the design and use of buildings, indoor materials and products. They provide a scientific basis for legally enforceable standards.

Review of Maritime Transport 2018

The Review of Maritime Transport is an UNCTAD flagship publication, published annually since 1968 with 2018 marking the 50 year anniversary. Around 80 per cent of the volume of international trade in goods is carried by sea, and the percentage is even higher for most developing countries. The Review of Maritime Transport provides an analysis of structural and cyclical changes affecting seaborne trade, ports and shipping, as well as an extensive collection of statistical information.

Criminal Victimization (2009)

DIANE Publishing This is a print on demand edition of a hard to find publication. Presents the annual estimates of rates and levels of violent crime (rape or sexual assault, robbery, aggravated assault, and simple assault), property crime (burglary, motor vehicle theft, and property theft), and personal theft (pocket picking and purse snatching). It describes the year-to-year change from 2008 and trends for the 10-year period from 2000 through 2009. The Nat. Criminal Victimization Survey collects information on non-fatal crimes, reported and not reported to the police, against persons age 12 or older from a nationally representative sample of U.S. households. This report also includes data on the characteristics of victims of crime; estimates of intimate partner violence; and use of firearms and other weapons during the crime. Illustrations.

National Geographic Kids Infopedia 2020, UK Edition

It's the 10th anniversary of the world's best-selling infopedia for kids! This year, it includes all new content, interviews with explorers in each chapter, a special look at what was going on in the world when the first National Geographic Kids Infopedia came out 10 years ago, plus the results for the 2019 Infopedia Challenge, and a new

challenge for kids who want to get involved. Kids can have fun keeping up with our quickly changing world with the world's best-selling almanac for kids, packed with incredible photos, tons of fun facts, crafts, activities, and fascinating features about animals, science, nature, technology, and more. There's a whole chapter full of fun and games, including activities, jokes, and comics. Practical reference material, including fast facts and maps of every country, has been fully updated.

The National Curriculum in England (2020 Update)

In this UPDATED edition of the National Curriculum for England for Key Stages 1 and 2, you will find full programmes of study for all 11 original primary subjects plus three new subjects: Relationships Education; Relationships and Sex Education; and Health Education (to be taught in English schools in September 2020). The National Curriculum for England sets out the framework for the national curriculum at key stages 1 and 2. This statutory guidance includes information about the school curriculum and the national curriculum the aims for the national curriculum statements on inclusion, and on pupils' competence in numeracy and maths, language and literacy across the school programmes of study for KS 1 and 2 for all the subjects that are taught at these key stages.

Factfulness

Ten Reasons We're Wrong About the World--and Why Things Are Better Than You Think

Flatiron Books INSTANT NEW YORK TIMES BESTSELLER "One of the most important books I've ever read—an indispensable guide to thinking clearly about the world." - Bill Gates "Hans Rosling tells the story of 'the secret silent miracle of human progress' as only he can. But Factfulness does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly." —Melinda Gates "Factfulness by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases." - Former U.S. President Barack Obama Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world's population live in poverty; why the world's population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment

bankers. In *Factfulness*, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don't know what we don't know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn't mean there aren't real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, *Factfulness* is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- "This book is my last battle in my life-long mission to fight devastating ignorance...Previously I armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn't enough. But I hope this book will be." Hans Rosling, February 2017.

This is Going to Hurt

Now a major BBC comedy-drama

Pan Macmillan Now A Major BBC Series Starring Ben Whishaw. The multi-million copy bestseller and Book of the Year at The National Book Awards. 'Painfully funny. The pain and the funniness somehow add up to something entirely good, entirely noble and entirely loveable.' - Stephen Fry *Welcome to the life of a junior doctor: 97-hour weeks, life and death decisions, a constant tsunami of bodily fluids, and the hospital parking meter earns more than you. Scribbled in secret after endless days, sleepless nights and missed weekends, Adam Kay's This is Going to Hurt provides a no-holds-barred account of his time on the NHS front line. Hilarious, horrifying and heartbreaking, this diary is everything you wanted to know – and more than a few things you didn't – about life on and off the hospital ward. Sunday Times Number One Bestseller for over eight months and winner of a record FOUR National Book Awards: Book of the Year, Non-Fiction Book of the Year, New Writer of the Year and Zoe Ball Book Club Book of the Year. This edition includes extra diary entries and an afterword by the author.*

Ex Aequo et Bono as a Response to the 'Over-Judicialisation' of International Commercial Arbitration

Kluwer Law International B.V. Despite its many distinguished proponents over time, *ex aequo et bono* – the idea of deciding disputes on the basis of what an adjudicator regards as fair and equitable – has failed to take hold in international commercial arbitration (ICA). Formalisation and fossilisation of arbitral procedure, as manifested in the increasing use of litigation-style practice, unfortunately reign instead. This bold and challenging book argues that parties to an arbitration should be more willing for their cross-border disputes to be decided (and arbitrators should be more prepared to decide those disputes) in accordance with broad principles of equity and fairness, rather than by strict adherence to technical rules of law. Putting forward suggestions based on extensive research and doctrinal considerations, this book invites us to confront what ICA was supposed to be, what it now is and what it can be. In particular, Dr Teramura discusses how, by resorting to *ex aequo et bono*, arbitrators can: construe contractual terms, including the limits; apply trade usages; deal with mandatory rules of a given forum or place of performance; minimise the cost and length of time that arbitration takes; avoid the abuse of discretion; and ensure predictable results. The book examines significant differences in the way that *ex aequo et bono* arbitration is understood among various state and international institutions. It attempts to identify a 'common core' of universally accepted concepts underlying those different understandings. The book argues that *ex aequo et bono*

has the potential to reform ICA without undermining its positive aspects. Along the way, it discusses the implications of ex aequo et bono arbitration on the now widely used UNCITRAL Model Law on ICA. It should thus appeal to lay business persons and commercial law practitioners who are looking for an economical and efficient way to solve business disputes within a globalised arbitration framework.
