BONDS OF WOOL

THE PALLIUM AND PAPAL POWER IN THE MIDDLE AGES

CUA Press *The pallium was effective because it was a gift with strings attached. This band of white wool encircling the shoulders had been a papal insigne and liturgical vestment since late antiquity. It grew in prominence when the popes began to bestow it regularly on other bishops as a mark of distinction and a sign of their bond to the Roman church. Bonds of Wool analyzes how, through adroit manipulation, this gift came to function as an instrument of papal influence. It explores an abundant array of evidence from diverse genres - including chronicles and letters, saints' lives and canonical collections, polemical treatises and liturgical commentaries, and hundreds of papal privileges - stretching from the eighth century to the thirteenth and representing nearly every region of Western Europe. These sources reveal that the papal conferral of the pallium was an occasion for intervening in local churches throughout the West and a means of examining, approving, and even disciplining key bishops, who were eventually required to request the pallium from Rome.*

The chapters provide an extended explanation of each theory, using examples from everyday life, popular culture, and literary texts; a list of specific questions critics who use that theory ask about literary texts; an interpretation of F. Scott Fitzgerald's *The Great Gatsby* through the lens of each theory; a list of questions for further practice to guide readers in applying each theory to different literary works; and a bibliography of primary and secondary works for further reading.

THE CULTURAL DEFENSE OF NATIONS

A LIBERAL THEORY OF MAJORITY RIGHTS

Oxford University Press *Cultural Defense of Nations* addresses one of the greatest challenges facing liberalism today: Is it legally and morally defensible for a liberal state to restrict immigration in order to preserve the cultural rights of majority groups? Political liberalism and international human rights law have largely been silent on this issue. Yet, changing patterns of contemporary immigration have given rise to a new set of divisive questions. In this book, Liav Orgad proposes a liberal approach to cultural defense of nations and discusses its justifications, limitations, and dimensions. The findings reveal a troubling trend in liberal states, which, ironically, in order to protect liberalism, violate the very same values. Orgad criticizes this state of affairs and formulates liberal standards for protecting essential elements of majority groups' culture. The book offers the most comprehensive analysis to date of one of the most pressing issues of our time—immigrants, majority groups, and national identity.

THE BOOK OF COMMON PRAYER: A GUIDE

Oxford University Press *The Book of Common Prayer is a remarkable book, a sacred book in more than one sense. It is primarily a liturgical text, meant to be used in corporate worship, and at the same time a literary landmark, a cultural icon, and a focus of identity for Anglican Christianity. This brief, accessible account of the Prayer Book, as it is often called, describes the contents of the classical version of the text, with special emphasis on the services for which it has been used most frequently since it was issued in 1662. Charles Hefling also examines the historical and theological context of the Prayer Book's origins, the changes it has undergone, the controversies it has touched off, and its reception in England, Scotland, and America. Readers are introduced to the political as well as the spiritual influence of the Book of Common Prayer, and to its enduring place in English-speaking religion.*

SAS/ETS USER'S GUIDE

VISIONS OF WHITENESS IN SELECTED WORKS OF ASIAN AMERICAN LITERATURE

McFarland Author Toni Morrison stressed the need to analyze race in American literature by white authors by shifting focus “from the racial object to the racial subject.” Representations of whiteness in certain works by Asian American authors reveal what happens when the visual dynamics of ethnography are reversed, and those persons often considered as objects—Asian Americans, other minorities—are allowed to see and judge those who so often objectify them. This study emphasizes social power structures, the aesthetics of whiteness and transformational identity politics. Works examined include Maxine Hong Kingston’s *The Woman Warrior* (1976) and *China Men* (1980), and *The Fifth Book of Peace* (2003); Leonard Chang’s *The Fruit ‘N Food* (1996); and, Joy Kogawa’s *Obasan* (1981).
