FROM NIGGAS TO GODS

CB Pub & Design ...a message to the Black Youth. This is a compilation of individual essays written during the summer-fall of 1992. The essays are designed to inspire thought within the Black Mind. These writings are primarily targeted toward the Black Youth of this day, of which I am a part of. I am not a Master of these teachings, but these teachings I wish to Master. They say that my generation is not intelligent enough to read a book. I say that They are wrong. It is just that They are not writing about anything of interest that is relevant to our lives! And when They do write something, they have to write in the perfect King's English to impress their Harvard Professors! Here we are with a book in one hand, and a dictionary in the other, trying to understand what in the hell the author is talking about! If you have got something to say, just say it! We are not impressed by your 27-letter words, or your Shakespearian style of writing. The Black Youth of today don't give a damn about Shakespeare!!! This ain't no damn poetry contest! We are dealing with the life, blood, and salvation of our entire Black Nation! If you want to reach the People, you have to embrace us where we are, and then take us where we need to go. So, these writings are from my generation and for my generation with respect and love. If no one will teach, love and guide us, then we will teach love and guide ourselves. Peace.

THE BOOK OF L

Springer Science & Business Media This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero)

and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L. Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

THE HARDMEN

LEGENDS OF THE CYCLING GODS

Profile Books It's time we all stopped whining and learned a thing or two from *The Toughest Cyclists Ever*. Including: Stephen Roche, whose cure for exhaustion was to go up a gear and fight harder, all the way to the ambulance. Eddy Merckx, who hurt himself so badly in breaking the Hour record that, he estimated, he shortened his career by a year. Beryl Burton, who crushed her (male) rival's morale with the offer of a piece of liquorice, before speeding past to victory. Nicole Cooke and Edwig Van Hooydonck, who rejected dope and became legends. *The Hardmen* tells the stories - the good bits, anyway - of the 40 most heroic Cyclists ever. Their bravery, their panache and their Perfect Amount of Dumb. It reminds us that suffering on a bike liberates us from our daily lives, and that, in the words of Lance Armstrong "pain is temporary, quitting lasts forever"; proof that even assholes can be insightful.

FORD CHRONICLE

RADAR INSTRUCTION MANUAL

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. Robert J. Blackwell Assistant Secretary for Maritime Affairs

ODES

Random House 'Interspersed with acts of breathtaking linguistic daring.' Charlotte Mendelson, Observer Book of the Year Opening with a powerful and tender 'Ode to the Hymen', Sharon Olds uses this age-old poetic form to address many aspects of herself, in a

collection that is centred around the female body and female pleasures, and touches along the way on parts of her own story which will be familiar from earlier works, each episode and memory now burnished by the wisdom and grace of looking back. In such poems as 'Ode to My Sister', 'Ode of Broken Loyalty', 'Ode to My Whiteness', 'Blow Job Ode', 'Ode to the Last 38 Trees in New York City Visible from This Window', Olds treats us to an intimate self-examination that, like all her work, is universal and by turns searing and charming in its honesty. From the early bodily joys and sorrows of her girlhood to the recent deaths of those dearest to her – the 'Sheffield Mountain Ode' for Galway Kinnell is one of the most stunning pieces here – Olds shapes her world in language that is startlingly fresh, profound in its conclusions, and life-giving for the reader.

PROVERBS, SENTENCES, AND PROVERBIAL PHRASES FROM ENGLISH WRITINGS MAINLY BEFORE 1500

Belknap Press This book is a collection of English proverbs, sentences, and proverbial phrases from the Middle Ages. The material is drawn from an exhaustive examination of the surviving texts, mainly printed ones but some still in manuscript. Certain books written later than 1500, usually by authors who were born twenty years or so before the turn of the century, are included, and John Heywood, the first great assembler of English proverbs, is represented by the sayings he compiled. , "No matter how popular a saying may appear," Mr. Whiting points out in his Preface, "it comes to us at one remove or more from popular usage. The medieval proverbs which survive do so only because they were written down by educated men, none of them collectors from the field. In most cases the sayings were incorporated in literary works by authors who did not hesitate to make changes suggested by context, application, and meter. We sometimes forget that Heywood's Dialogue and Epigrams are poems, although Heywood's standards of prosody are such as to let him use proverbs without too drastic changes for rhyme and rhythm's sake. What we have in most quotations is the proverb, not as an author may have heard or read it, but in the form which suited his immediate convenience or whim." The sayings are alphabetized by key words and the quotations are in chronological order. Cross-references link sayings of similar import, and the index is a guide to important words other than those by which the alphabetical order is established. References are given to the standard collections of English proverbs, so that the user can trace the later history of many of the sayings. Filling a long-felt gap in the field, this work will be indispensable to students of Old and Middle English literature and of great value to everyone interested in the rich resources of proverb lore.
