A CHANCE IN THE WORLD

AN ORPHAN BOY, A MYSTERIOUS PAST, AND HOW HE FOUND A PLACE CALLED HOME

Thomas Nelson A heart-rending but uplifting story of the human spirit's ability to prevail. From the day he is five-years-old and dropped off at his foster home of the next eleven years, Stephen is mentally and physically tortured. No one in the system can help him. No one can tell him if he has a family. No one can tell him why, with obvious African-American features, he has the last name of Klakowicz. Along the way, a single faint light comes only from a neighbor's small acts of kindness and caring—and a box of books. From one of those books he learns that he has to fight in any way he can—for victory is in the battle. His victory is to excel in school. Against all odds, the author succeeded. He attended college, graduated, became a successful corporate executive, and married a wonderful woman with whom he established a loving family of his own. Through it, he dug voraciously through records and files and found his history, his birth family—and the ultimate disappointment as some family members embrace him, but others reject him. Readers won't be the same after reading this powerful story. They will share in the hurts and despair but also in the triumph against daunting obstacles. They will share

this story with their family, with their friends, with their neighbors.

THE TEACHER YOU WANT TO BE

ESSAYS ABOUT CHILDREN, LEARNING, AND TEACHING

This book is about bringing the education we want for our own children to all. It is focused on a set of strongly held beliefs that drive the actions of educators every day. Each chapter of the book is focused on a single belief and invites readers to consider what they can do to help children attend schools based on the true, authentic expressions of their teachers' beliefs. Contributions include essays by many prominent educators including Sir Ken Robinson, Deborah Meier and Thomas Newkirk. Please click on the contents tab below for a list of all 18 contributors. In 2012, a diverse group of American educators made a pilgrimage to Italy to observe instruction at a Reggio Emilia school. Their observations resulted in a desire to articulate a set of belief statements about education. This book is based on those beliefs. With this collection, the authors and editors hope to create a space in the current education conversation for teachers to know that they can teach in a way that is aligned to their beliefs.

DUAL LANGUAGE EDUCATION: TEACHING AND LEADING IN TWO LANGUAGES

Springer This book provides a comprehensive and interdisciplinary examination of dual language education for Latina/o English language learners (ELLs) in the United States, with a particular focus on the state of Texas and the U.S.-Mexico border. The book is broken into three parts. Part I examines how Latina/o ELLs have been historically underserved in public schools and how this has contributed to numerous educational inequities. Part II examines bilingualism, biliteracy, and dual language education as an effective model for addressing the inequities identified in Part I. Part III examines research on dual language education in a large urban school district, a high-performing elementary school that serves a high proportion of ELLs along the Texas-Mexico border, and best practices for principals and teachers. This volume explores the potential and realities of dual language education from a historical and social justice lens. Most importantly, the book shows how successful programs and schools need to address and align many related aspects in order to best serve emergent bilingual Latino/as: from preparing teachers and administrators, to understanding assessment and the impacts of financial inequities on bilingual learners. Peter Sayer, The Ohio State University, USA

IN BATTLE FOR PEACE

THE STORY OF MY 83RD BIRTHDAY

Oxford University Press W. E. B. Du Bois was a public intellectual, sociologist, and activist on behalf of the African American community. He profoundly shaped black political culture in the United States through his founding role in the NAACP, as well as internationally through the Pan-African movement. Du Bois's sociological and historical research on African-American communities and culture broke ground in many areas, including the history of the post-Civil War Reconstruction period. Du Bois was also a prolific author of novels, autobiographical accounts, innumerable editorials and journalistic pieces, and several works of history. One of the most neglected and obscure books by W. E. B. Du Bois, *In Battle for Peace* frankly documents Du Bois's experiences following his attempts to mobilize Americans against the emerging conflict between the United States and the Soviet Union. A victim of McCarthyism, Du Bois endured a humiliating trial—he was later acquitted—and faced political persecution for over a decade. Part autobiography and part political statement, *In Battle for Peace* remains today a powerful analysis of race in America. With a series introduction by editor Henry Louis Gates, Jr., and an introduction by Manning Marable, this edition is essential for anyone interested in African American history.

BIEN DIT!

Holt Rinehart & Winston

TOUCHING SPIRIT BEAR

Harper Collins In his Nautilus Award-winning classic *Touching Spirit Bear*, author Ben Mikaelson delivers a powerful coming-of-age story of a boy who must overcome the effects that violence has had on his life. After severely injuring Peter Driscoll in an empty parking lot, mischief-maker Cole Matthews is in major trouble. But instead of jail time, Cole is given another option: attend Circle Justice, an alternative program that sends juvenile offenders to a remote Alaskan Island to focus on changing their ways. Desperate to avoid prison, Cole fakes humility and agrees to go. While there, Cole is mauled by a mysterious white bear and left for dead. Thoughts of his abusive parents, helpless Peter, and his own anger cause him to examine his actions and seek redemption—from the spirit bear that attacked him, from his victims, and, most importantly, from himself. Ben Mikaelson paints a vivid picture of a juvenile offender, examining the roots of his anger without absolving him of responsibility for his actions, and

questioning a society in which angry people make victims of their peers and communities. *Touching Spirit Bear* is a poignant testimonial to the power of a pain that can destroy, or lead to healing. A strong choice for independent reading, sharing in the classroom, homeschooling, and book groups.

What a great STEM friend!

MILLIONAIRES FOR THE MONTH

Random House Books for Young Readers How would you spend five million dollars in 30 days? A billionaire's wallet, a bizarre challenge, and an unlikely friendship send two kids on a wild adventure. From the author of *The Miscalculations of Lightning Girl*. Felix Rannells and Benji Porter were never supposed to be field-trip partners. Felix is a rule follower. Benji is a rule bender. They're not friends. And they don't have anything to talk about. Until . . . They find a wallet. A wallet that belongs to tech billionaire Laura Friendly. They're totally going to return it-but not before Benji "borrows" twenty dollars to buy hot dogs. Because twenty dollars is like a penny to a billionaire, right? But a penny has value. A penny doubled every day for thirty days is \$5,368,709.12! So that's exactly how much money Laura Friendly challenges Felix and Benji to spend. They have thirty days. They can't tell anyone. And there are LOTS of other rules. But if they succeed, they each get ten million dollars to spend however they want. Challenge accepted! They rent cool cars, go to Disney World, buy pizza for the whole school-and that's just the beginning! But money can't buy everything or fix every problem. And spending it isn't always as easy and fun as they thought it would be. . . . As smart as it is entertaining, *Millionaires for the Month* is a thought-provoking story about friendship, privilege, and the value of a penny.

THE WORLD ENDS IN APRIL

Random House Books for Young Readers Is middle school drama scarier than an asteroid heading for Earth? Find out in this smart and funny novel by the author of *The Miscalculations of Lightning Girl*. Every day in middle school can feel like the end of the world. Eleanor Dross knows a thing or two about the end of the world, thanks to a survivalist grandfather who stockpiles freeze-dried food and supplies--just in case. So when she reads about a Harvard scientist's prediction that an asteroid will strike Earth in April, Eleanor knows her family will be prepared. Her classmates? They're on their own! Eleanor has just one friend she wants to keep safe: Mack. They've been best friends since kindergarten, even though he's more of a smiley emoji and she's more of an eye-roll emoji. They'll survive the end of the world together . . . if Mack doesn't go away to a special school for the blind. But it's hard to keep quiet about a life-destroying asteroid--especially at a crowded lunch table--and soon Eleanor is the president of the (secret) End of the World Club. It turns out that prepping for TEOTWAWKI (the End of the World as We Know It) is actually kind of fun. But you can't really prepare for everything life drops on you. And one way or another, Eleanor's world is about to change.

THE HONEYBEE MAN

Schwartz & Wade "Eccentric and unusual with an appealing, gentle charm," raves Kirkus Reviews, in a starred review. Every morning, Fred climbs three flights of stairs—up to his rooftop in Brooklyn, New York—and greets the members of his enormous family: "Good morning, my bees, my darlings!" His honeybee workers are busy—they tend the hive, feed babies, and make wax rooms. They also forage in flowers abloom across Brooklyn... so that, one day, Fred can make his famous honey, something the entire neighborhood looks forward to tasting. Lela Nargi's beautifully written story—accompanied by Kyrsten Brooker's collage-style illustrations—offers an inside look at the life of an endearing beekeeper and the honey-making process. A Junior Library Guild Selection, a Bank Street College of Education Best Book of the Year, a Cook Prize Honor Book, and a NSTA-CBC Outstanding Science Trade Book.
