Rust Belt Chic The Cleveland Anthology Mark Kohut & Assoc *Rust Belt Chic: The Cleveland Anthology*, edited by Richey Piiparinen and Anne Trubek, provides an inside-out snapshot of the city, containing contributions by established authors such as Connie Schultz and Michael Ruhlman as well as 47 others. *Rust Belt Chic* tells stories about failure (mills closing), conflict (Pekar's constant grouching), growth (a thriving Iraqi immigrant community) and renewal (moving away only to, finally, return home). Put together, these stories create a new narrative about Cleveland that incorporates but deepens and widens the familiar tropes of manufacturing, stadiums and comebacks. **The Half-Life of Deindustrialization Working-Class Writing about Economic Restructuring** University of Michigan Press Examines how contemporary American working-class literature reveals the long-term effects of deindustrialization on individuals and communities **The Cleveland Anthology** Written by residents of Cleveland, this collection of essays and art speaks to the city from an insiders' view and presents a distinct sense of place. The book was prompted by hearing the echoes for a revitalization of Cleveland and aims to find the future through the history of the city. Citizens of Cleveland will connect to the stories, and readers that are not from the area will enjoy the insight into what it means to live there, why the city is loved or hated, and why some obsess over the city. The works are compiled into eight parts: "Concept," "Snapshot," "History," "Growing Up," "Conflict," "Music," "Culture," and "Back Home" and include contributions by: David C. Barnett, Sean Decatur, Mansfield Frazier, David Giffels, Alissa Nutting, Jim Roakakis, Connie Schultz, and many more. **Music Preservation and Archiving Today** Rowman & Littlefield *Music Preservation and Archiving Today* moves beyond the how-to and assembles the work currently being done to preserve music and "scenes" via essays, case studies, and overviews of work by academic

archives as well as communitydriven preservation projects. **The Folklorist in the Marketplace Conversations at the Crossroads of Vernacular Culture and Economics** University Press of Colorado *The Folklorist in the Marketplace* brings together voices from multiple disciplines to consider how economics shape—and are shaped by—folk groups and academic disciplines. The authors ask how folk and folklorists can productively comment on the economic structures they inhabit. As trade, technology, and geopolitics have led to a rapid increase in the global spread of cultural products like media, knowledge, objects, and folkways, there has been a concomitant rise in fear and anxiety about globalization's dark other side—economic nativism, neocolonialism, cultural appropriation, and loss. Culture has become a resource and a currency in the global marketplace. This movement of people and forms necessitates a new textual consideration of how folklore and economics interweave. In *The Folklorist in the Marketplace*, contributors explore how the marketplace and folklore have always been integrally linked and what that means at this cultural and economic moment. Covering a variety of topics, from creel boats to the history of a commune that makes hammocks, *The Folklorist in the Marketplace* goes far beyond the well-trod examinations of material culture to look closely at the historical and contemporary intersections of these two disciplines and to provoke cross-disciplinary conversation and collaboration. [the collection] paints intimate portraits of neglected places that are often used as political talking points. A good companion piece to J. D. Vance's *Hillbilly Elegy*."—Booklist The essays in *Voices from the Rust Belt* "address segregated schools, rural childhoods, suburban ennui, lead poisoning, opiate addiction, and job loss. They reflect upon happy childhoods, successful community ventures, warm refuges for outsiders, and hidden oases of natural beauty. But mainly they are stories drawn from uniquely personal experiences: A girl has her bike stolen. A social worker in Pittsburgh makes calls on clients. A journalist from Buffalo moves away, and misses home.... A father gives his daughter a bath in the lead-contaminated water of Flint, Michigan" (from the introduction). Where is America's Rust Belt? It's not quite a geographic region but a linguistic one, first introduced as a concept in 1984 by Walter Mondale. In the modern vernacular, it's closely associated with the "Post-Industrial Midwest," and includes Michigan, Ohio, and Pennsylvania, as well as parts of Illinois, Wisconsin, and New York. The region reflects the country's manufacturing center, which, over the past forty years, has been in decline. In the 2016 election, the Rust Belt's economic woes became a political talking point, and helped pave the way for a Donald Trump victory. But the region is neither monolithic nor easily understood. The truth is much more nuanced. *Voices from the Rust Belt* pulls together a distinct variety of voices from people who call the region home. Voices that emerge from familiar Rust Belt cities—Detroit, Cleveland, Flint, and Buffalo, among other places—and observe, with grace and sensitivity, the changing economic and cultural realities for generations of Americans. **Dictionary of Midwestern Literature, Volume 2 Dimensions of the Midwestern Literary Imagination** Indiana University Press *The Midwest* has produced a robust literary

heritage. Its authors have won half of the nation's Nobel Prizes for Literature plus a significant number of Pulitzer Prizes. This volume explores the rich racial, ethnic, and cultural diversity of the region. It also contains entries on 35 pivotal Midwestern literary works, literary genres, literary, cultural, historical, and social movements, state and city literatures, literary journals and magazines, as well as entries on science fiction, film, comic strips, graphic novels, and environmental writing. Prepared by a team of scholars, this second volume of the Dictionary of Midwestern Literature is a comprehensive resource that demonstrates the Midwest's continuing cultural vitality and the stature and distinctiveness of its literature. **Authentizität und industriekulturelles Erbe Zugänge und Beispiele** Walter de Gruyter GmbH & Co KG Der ökonomische und soziale Strukturwandel der Industriegesellschaft findet seine kulturellen Entsprechungen in der post-industriellen „Landschaftsreparatur“ und in der „Musealisierung“ industrieller Hinterlassenschaft. Strategien der In-Wert-Setzung des industriekulturellen Erbes ließen neue Orte und Landschaften der Erinnerung entstehen, die zentrale Ankerpunkte regionaler, post-industrieller Identitäten sind. Dabei erscheint das Argument des Authentischen essentiell für die In-Wert-Setzungs-Prozesse des industriekulturellen Erbes. Aus unterschiedlichen Perspektiven thematisieren die Beiträge des Bandes diese Zusammenhänge. Sie historisieren zugleich die industriekulturelle Authentizität. **American Rust** Simon and Schuster Set in a beautiful but dying Pennsylvania steel town, *American Rust* is a novel of the lost American dream and the desperation that arises from its loss. It is the story of two young men bound to the town by family, responsibility, inertia and the beauty around them who dream of a future beyond the factories, abandoned homes, and the polluted river. Isaac is the smartest kid in town, left behind to care for his sick father after his mother commits suicide and his sister Lee moves away. Now Isaac wants out too. Not even his best friend, Billy Poe, can stand in his way: broad-shouldered Billy, always ready for a fight, still living in his mother's trailer. Then, on the very day of Isaac's leaving, something happens that changes the friends' fates and tests the loyalties of their friendship and those of their lovers, families, and the town itself. Evoking John Steinbeck's novels of restless lives during the Great Depression, *American Rust* is an extraordinarily moving novel about the bleak realities that battle our desire for transcendence, and the power of love and friendship to redeem us. **Out Of This Furnace** University of Pittsburgh Press *Out of This Furnace* is Thomas Bell's most compelling achievement. Its story of three generations of an immigrant Slovak family -- the Dobrejcaks -- still stands as a fresh and extraordinary accomplishment. The novel begins in the mid-1880s with the naive blundering career of Djuro Kracha. It tracks his arrival from the old country as he walked from New York to White Haven, his later migration to the steel mills of Braddock, Pennsylvania, and his eventual downfall through foolish financial speculations and an extramarital affair. The second generation is represented by Kracha's daughter, Mary, who married Mike Dobrejcak, a steel worker. Their decent lives, made desperate by the inhuman working conditions of the mills, were held together by the warm bonds of their family life, and Mike's political idealism set an example for the children. Dobe Dobrejcak, the third generation, came of age in the 1920s determined not to be sacrificed to the mills. His involvement in the successful unionization of the steel industry climaxed a half-century struggle to establish

economic justice for the workers. *Out of This Furnace* is a document of ethnic heritage and of a violent and cruel period in our history, but it is also a superb story. The writing is strong and forthright, and the novel builds constantly to its triumphantly human conclusion. **How to Live in Ruins** The poems in *How to Live in Ruins* tell one couple's story of moving to Cleveland and raising a family there. This is a book for anyone who has ever loved a place that's a little bit rusty and tried to make it better. **Happy Anyway A Flint Anthology** A collection of essays and personal narratives, the book captures a confounding, contradictory city, proving that Flint is far more than the common narrative of an industrial town picking itself up after a big company has moved out or as the site of a devastating public health crisis. The stories delve into the lives within the city - what it was like to be a child on the east side; how it feels to be a parent today, without clean water; who is able to truly lay claim to being from Flint;" and what it means to finally leave - or to stay, even when bikes, jewelry, or love continually disappear." **A Skeptic's Guide to Writers' Houses** University of Pennsylvania Press There are many ways to show our devotion to an author besides reading his or her works. Graves make for popular pilgrimage sites, but far more popular are writers' house museums. What is it we hope to accomplish by trekking to the home of a dead author? We may go in search of the point of inspiration, eager to stand on the very spot where our favorite literary characters first came to life—and find ourselves instead in the house where the author himself was conceived, or where she drew her last breath. Perhaps it is a place through which our writer passed only briefly, or maybe it really was a longtime home—now thoroughly remade as a decorator's show-house. In *A Skeptic's Guide to Writers' Houses* Anne Trubek takes a vexed, often funny, and always thoughtful tour of a goodly number of house museums across the nation. In Key West she visits the shamelessly ersatz shrine to a hard-living Ernest Hemingway, while meditating on his lost Cuban farm and the sterile Idaho house in which he committed suicide. In Hannibal, Missouri, she walks the fuzzy line between fact and fiction, as she visits the home of the young Samuel Clemens—and the purported haunts of Tom Sawyer, Becky Thatcher, and Injun' Joe. She hits literary pay-dirt in Concord, Massachusetts, the nineteenth-century mecca that gave home to Hawthorne, Emerson, and Thoreau—and yet could not accommodate a surprisingly complex Louisa May Alcott. She takes us along the trail of residences that Edgar Allan Poe left behind in the wake of his many failures and to the burned-out shell of a California house with which Jack London staked his claim on posterity. In Dayton, Ohio, a charismatic guide brings Paul Laurence Dunbar to compelling life for those few visitors willing to listen; in Cleveland, Trubek finds a moving remembrance of Charles Chesnutt in a house that no longer stands. Why is it that we visit writers' houses? Although admittedly skeptical about the stories these buildings tell us about their former inhabitants, Anne Trubek carries us along as she falls at least a little bit in love with each stop on her itinerary and finds in each some truth about literature, history, and contemporary America. **Why God Is a Woman** BOA Editions, Ltd. *Why God Is a Woman* is a collection of poems written about a magical island where women rule and men are the second sex. It is also the story of a boy who, exiled from the island because he could not abide by its sexist laws, looks back with both nostalgia and bitterness and wonders: Why does God have to be a woman? Celebrated prose poet

Nin Andrews creates a world both fantastic and familiar where all the myths, logic, and institutions support the dominance of women. Nin Andrews's books include *The Book of Orgasms* and *Sleeping with Houdini*. **The Best American Crime Writing 2006** Harper Collins A sterling collection of the year's most shocking, compelling, and gripping writing about real-life crime, the 2006 edition of *The Best American Crime Writing* offers fascinating vicarious journeys into a world of felons and their felonious acts. This thrilling compendium includes: Jeffrey Toobin's eye-opening exposé in *The New Yorker* about a famous prosecutor who may have put the wrong man on death row Skip Hollandsworth's amazing but true tale of an old cowboy bank robber who turned out to be a "classic good-hearted Texas woman" Jimmy Breslin's stellar piece about the end of the Mob as we know it **Oberlin Alumni Magazine**

Surrogate Suburbs Black Upward Mobility and Neighborhood Change in Cleveland, 1900-1980 UNC Press Books The story of white flight and the neglect of black urban neighborhoods has been well told by urban historians in recent decades. Yet much of this scholarship has downplayed black agency and tended to portray African Americans as victims of structural forces beyond their control. In this history of Cleveland's black middle class, Todd Michney uncovers the creative ways that members of this nascent community established footholds in areas outside the overcrowded, inner-city neighborhoods to which most African Americans were consigned. In asserting their right to these outer-city spaces, African Americans appealed to city officials, allied with politically progressive whites (notably Jewish activists), and relied upon both black and white developers and real estate agents to expand these "surrogate suburbs" and maintain their livability until the bona fide suburbs became more accessible. By tracking the trajectories of those who, in spite of racism, were able to succeed, Michney offers a valuable counterweight to histories that have focused on racial conflict and black poverty and tells the neglected story of the black middle class in America's cities prior to the 1960s. **Household Rhymes Little Soldiers An American Boy, a Chinese School and the Global Race to Achieve** Hachette UK 'I couldn't put this book down. Whip smart, hilariously funny and shocking. A must-read' Amy Chua, Yale Law Professor and author of *Battle Hymn of the Tiger Mother* In 2009, Lenora Chu, her husband Rob, and toddler Rainey, moved from LA to the Chinese megacity Shanghai. The US economy was spinning circles, while China seemed to be eating the planet's economic lunch. What's more, Shanghai teenagers were top in the world at maths, reading and science. China was not only muscling the rest of the world onto the sidelines, but it was also out-educating the West. So when Rainey was given the opportunity to enroll in Shanghai's most elite public kindergarten, Lenora and Rob grabbed it. Noticing her rambunctious son's rapid transformation - increasingly disciplined and obedient but more anxious and fearful - Lenora begins to question the system. What the teachers were accomplishing was indisputable, but what to make of their methods? Are Chinese children paying a price for their obedience and the promise of future academic prowess? How much discipline is too much? And is the Chinese education system really what the West should measure itself against? While Rainey was at school, Lenora embarked on a reporting mission to answer these questions in a larger context. Through a combination of the personal narratives and thoughts of teachers, parents, administrators and school children, *Little Soldiers* unpacks the

story of education in China. **1,000 Artists' Books Exploring the Book as Art** Quarry Books The book is a timeless art form, one that is as alive today as ever before, and artists continue to explore and explode the boundaries of what a book is and can be. In this beautiful collection, you will experience close-up various aspects of hand-crafted books: covers, bindings, scrolls, folded and origami structures and books made from found objects. You will find richly illustrated and calligraphed pages as well as books created from a variety of printed processes. Ingenuity and creativity abounds in this carefully curated collection of both historically important and modern works. **Remembering the Twentieth Century Limited** In this new collection essays, Matthew Stevenson weaves together a historical tapestry of the last hundred years. From the battlefields of Gallipoli and those around Armenia, to Cold War Washington and modern Beirut, he has written a compelling, yet often humorous and always accessible account of persons and places encountered in his travels. **Caves of the Rust Belt Ohio Stories** Tortoise Books The natural successor to Sherwood Anderson's Winesburg collection, *Caves of the Rust Belt: Ohio Stories* travels to the Heart of It All, where drowned sailors reminisce over a hot meal, and the rules of the yard sale are law. In his stunning debut, Joe Kapitan captures the modern Midwest in devastating detail, often blurring the lines between reality and the surreal. The depth of each story leaves readers wanting more as they dig into the pages of this remarkable collection. *Memories of another America* encase families like a Cold War bunker, forcing characters to confront the pasts that haunt their future. A man tries to renovate the exterior of an old mansion, but even in the state where All Things Are Possible, it is impossible to remove the cracks in the foundation and exorcise the ghosts in the basement. A school shares a message of resilience and community, while masking terrifying truths that appear all-too-possible in our current age. Kapitan has created a fantastical representation of the post-recession Midwest, presenting an image of a world where sinkholes don't just swallow the neighborhood, but also unearth hidden hope lying beneath the surface. **The Akron Anthology** "We are storytellers, by instinct and necessity. We know that we are descended from the best of times--a century ago Akron was the fastest growing city in America--and the worst of times. A generation ago Akron was the first notch in the Rust Belt. And these are stories to tell. We tell them because they have substance: the tales of a great rise and a great fall and a gritty fight back toward grace. And because they are not well known beyond our own borders. That's why the stories in this book are important, because when stories are shared, they give our lives meaning and they give our lives dignity: 'We are here, we are here'"--From the introduction. **No Longer Innocent Book Art in America : 1960-1980** By Betty Bright. **Millennial Momentum How a New Generation Is Remaking America** Rutgers University Press About every eight decades, coincident with the most stressful and perilous events in U.S. history—the Revolutionary and Civil Wars and the Great Depression and World War II—a new, positive, accomplished, and group-oriented “civic generation” emerges to change the course of history and remake America. The Millennial Generation (born 1982–2003) is America’s newest civic generation. In their 2008 book, *Millennial Makeover*, Morley Winograd and Michael D. Hais made a prescient argument that the Millennial Generation would change American politics for good. Later that year, a huge surge of participation from young

voters helped to launch Barack Obama into the White House. Now, in *Millennial Momentum*, Winograd and Hais investigate how the beliefs and practices of the Millennials are transforming other areas of American culture, from education to entertainment, from the workplace to the home, and from business to politics and government. The Millennials' cooperative ethic and can-do spirit have only just begun to make their mark, and are likely to continue to reshape American values for decades to come. Drawing from an impressive array of demographic data, popular texts, and personal interviews, the authors show how the ethnically diverse, socially tolerant, and technologically fluent Millennials can help guide the United States to retain its leadership of the world community and the global marketplace. They also illustrate why this generation's unique blend of civic idealism and savvy pragmatism will enable us to overcome the internal culture wars and institutional malaise currently plaguing the country. *Millennial Momentum* offers a message of hope for a deeply divided nation. **A Brief History of Neoliberalism** OUP Oxford Neoliberalism - the doctrine that market exchange is an ethic in itself, capable of acting as a guide for all human action - has become dominant in both thought and practice throughout much of the world since 1970 or so. Its spread has depended upon a reconstitution of state powers such that privatization, finance, and market processes are emphasized. State interventions in the economy are minimized, while the obligations of the state to provide for the welfare of its citizens are diminished. David Harvey, author of 'The New Imperialism' and 'The Condition of Postmodernity', here tells the political-economic story of where neoliberalization came from and how it proliferated on the world stage. While Thatcher and Reagan are often cited as primary authors of this neoliberal turn, Harvey shows how a complex of forces, from Chile to China and from New York City to Mexico City, have also played their part. In addition he explores the continuities and contrasts between neoliberalism of the Clinton sort and the recent turn towards neoconservative imperialism of George W. Bush. Finally, through critical engagement with this history, Harvey constructs a framework not only for analyzing the political and economic dangers that now surround us, but also for assessing the prospects for the more socially just alternatives being advocated by many oppositional movements. **An April Across America** "I decided to take the southern route, even though I knew that would mean missing Chicago, a hub on so many of those earlier journeys. After visiting with my parents in Princeton, New Jersey my plan was to watch baseball in Baltimore, spend a day in Washington, drive across Virginia to Chapel Hill, North Carolina, fly to Alabama, and then drive across Mississippi. From Jackson, Mississippi, I booked a flight to Texas, and then another to California. In between planes in Dallas, I would drive to Waco. After a few days in Los Angeles, I would spend a weekend with family in and around San Francisco. I would do all this in less than two weeks, which friends and some family members thought mad. They would say things like, 'Why do you want to go to Mississippi?' but then chastise me for missing New Orleans. But I had my own list of people and places to see." Book jacket. **Michigan State Fair** Arcadia Publishing First held in 1849 in Detroit, the location of the Michigan State Fair rotated in the early years between Detroit, Ann Arbor, Kalamazoo, Adrian, Jackson, Grand Rapids, East Saginaw, Lansing, and Pontiac before settling permanently in Detroit. When Detroit department store magnate Joseph L. Hudson sold 135 acres of Woodward Avenue

farmland to the Michigan State Agricultural Society in 1905 for \$1, the permanent home of the Michigan State Fair was established. On February 12, 2009, Michigan governor Jennifer Granholm signed an executive order effectively ending a 160-year tradition--the Michigan State Fair. **Hanji Unfurled One Journey Into Korean Papermaking Garden for the Blind** Wayne State University Press *In Garden for the Blind*, trouble lurks just outside the door for Kelly Fordon's diverse yet interdependent characters. As a young girl growing up in an affluent suburb bordering Detroit, Alice Townley witnesses a tragic accident at her parents' lavish party. In the years that follow, Alice is left mostly in the care of the household staff, free to forge friendships with other pampered and damaged teens. When she and her friend Mike decide to pin a crime on another student at their exclusive high school, the consequences will reverberate for years to come. Set between 1974 and 2012, Fordon's intricately woven stories follow Alice and Mike through high school, college, and into middle age, but also skillfully incorporate stories of their friends, family, acquaintances, and even strangers who are touched by the same themes of privilege, folly, neglect, and resilience. A WWII veteran sleepwalks out of his home at night, led by vivid flashbacks. A Buddhist monk is assaulted by a robber while seated in meditation. A teenaged girl is shot walking home from the corner store with a friend. A lifelong teacher of blind children is targeted by vandals at the school she founded. *Garden for the Blind* visits suburban and working-class homes, hidden sanctuaries and dangerous neighborhoods, illustrating the connections between settings and relationships (whether close or distant) and the strange motivations that keep us moving forward. All readers of fiction will enjoy the nimble unfolding of Fordon's narrative in this collection. **Scarcity The New Science of Having Less and How It Defines Our Lives** Picador In this provocative book based on cutting-edge research, Sendhil Mullainathan and Eldar Shafir show that scarcity creates a distinct psychology for everyone struggling to manage with less than they need. Busy people fail to manage their time efficiently for the same reasons the poor and those maxed out on credit cards fail to manage their money. The dynamics of scarcity reveal why dieters find it hard to resist temptation, why students and busy executives mismanage their time, and why the same sugarcane farmers are smarter after harvest than before. Once we start thinking in terms of scarcity, the problems of modern life come into sharper focus, and *Scarcity* reveals not only how it leads us astray but also how individuals and organizations can better manage scarcity for greater satisfaction and success. **Steeltown U.S.A Work and Memory in Youngstown** Once the symbol of a robust steel industry and blue-collar economy, Youngstown, Ohio, and its famous Jeannette Blast Furnace have become key icons in the tragic tale of American deindustrialization. Sherry Lee Linkon and John Russo examine the inevitable tension between those discordant visions, which continue to exert great power over Steeltown's citizens as they struggle to redefine their lives. When the Jenny was shut down in 1978, 50,000 Youngstown workers lost their jobs, cutting the heart out of the local economy. Even as the community organized a nationally recognized effort to save the mills, the city was rocked by economic devastation, runaway crime, and mob scandal, problems that persist twenty-five years later. In the midst of these struggles the Jenny remained standing as a proud symbol of the community's glory days, still a dominant force in the construction of

both individual and collective identities in Youngstown. Focusing on stories and images that both reflect and perpetuate how Youngstown understands itself as a community, Sherry Lee Linkon and John Russo have forged a historical and cultural study of the relationship between community, memory, work, and conflict. **Whiskey Island** Gray & Company, Publishers Hired by Cleveland councilman Bert Loftus, who is facing a potentially career-ending FBI investigation, private investigator Milan Jacovich attempts to discover who is trying to kill Loftus and discovers a trail of bribes and debauchery much darker than the usual political corruption. **Healing American Democracy Going Local** Createspace Independent Publishing Platform American democracy is in trouble. Loss of public confidence in the federal government to solve-or even care about-the problems and concerns of ordinary people has bred both frustration and anger. At the same time, sharp divisions-partisan, demographic, cultural, generational and economic-make finding consensus at the federal level nearly impossible. Yet pundits and politicians continue to call for leadership that "brings us together" as the antidote to this growing divisiveness. The authors profoundly disagree. Mike Hais, Doug Ross and Morley Winograd make a thought-provoking, non-partisan case to rebuild Americans' faith in democracy. Coined as "Constitutional Localism" they suggest moving as much decision-making as possible out of Washington into local communities, while preserving the individual and civil rights granted by the Constitution. EDITORIAL REVIEWS "Messrs Hais, Ross, and Winograd have stumbled upon a simple yet brilliant idea for how to fix American democracy: empower localities to create their own political and civic solutions while using the Constitution as the bedrock for civil rights. From Kalamazoo to Denver, and Knoxville to New Orleans, they provide stories about local success, places where leaders have responded to their constituents' needs in a way the federal government never could and rebuilt civic trust in the process. The authors' optimism and creativity have been sorely needed and should be welcomed by those on both the left and the right. On one thing all Americans should be able to agree - we need new solutions and this book offers many that are worthy." Michael Smerconish, SiriusXM, CNN, and Sunday Philadelphia Inquirer. "Here's a brilliant, alternative solution to our national woes. The notion of bringing power back to communities represents the potential upside in an information age that, to date, has driven greater centralization, economic concentration and horrendous levels of polarization. This should be a foundational text, not to any one political perspective, but to the entire polity." Joel Kotkin, Presidential Fellow in Urban Futures, Chapman University and Executive Director, Center for Opportunity Urbanism "Tip O'Neill said 'All politics is local.' As Mike Hais, Doug Ross, and Morley Winograd explore in this valuable work, while Washington is riven by polarization, some of the most innovative and important policies are flowing from local communities today." David Axelrod, Founder and Director of the University of Chicago Institute of Politics MORE ABOUT THE AUTHORS (insert pictures from all three authors as on this page https://www.amazon.com/Millennial-Majority-Coalition-Remaking-American/dp/1517063582/ref=sr_1_4?ie=UTF8&qid=1522345245&sr=8-4&keywords=morley+winograd) **The City A Global History** Modern Library If humankind can be said to have a single greatest creation, it would be those places that represent the most eloquent expression of our species's ingenuity, beliefs, and ideals: the city. In this

authoritative and engagingly written account, the acclaimed urbanist and bestselling author examines the evolution of urban life over the millennia and, in doing so, attempts to answer the age-old question: What makes a city great? Despite their infinite variety, all cities essentially serve three purposes: spiritual, political, and economic. Kotkin follows the progression of the city from the early religious centers of Mesopotamia, the Indus Valley, and China to the imperial centers of the Classical era, through the rise of the Islamic city and the European commercial capitals, ending with today's post-industrial suburban metropolis. Despite widespread optimistic claims that cities are "back in style," Kotkin warns that whatever their form, cities can thrive only if they remain sacred, safe, and busy—and this is true for both the increasingly urbanized developing world and the often self-possessed "global cities" of the West and East Asia. Looking at cities in the twenty-first century, Kotkin discusses the effects of developments such as shifting demographics and emerging technologies. He also considers the effects of terrorism—how the religious and cultural struggles of the present pose the greatest challenge to the urban future. Truly global in scope, *The City* is a timely narrative that will place Kotkin in the company of Lewis Mumford, Jane Jacobs, and other preeminent urban scholars. **Rust Belt Chicago An Anthology** "Chicago is built on a foundation of meat and railroads and steel, but its identity long ago stretched past manufacturing. A city of opportunity from the get-go, it continues to lure new residents from around the world, and from across a region rocked by recession and deindustrialization. But the problems that plague the Belt don't disappear once you get past Gary. In fact, they're often amplified. Chicago's glittering downtown towers stand in sharp contrast to the struggling south and west sides. A city defined by movement that's the anchor of the Midwest, bound to its neighbors by a shared ecosystem and economy, Chicago's complicated – both of the Belt and beyond it." -- **The Next Hundred Million America in 2050** Penguin Paperbacks The social analyst author of *The New Geography* makes predictions for mid-21st-century America, assessing how an anticipated additional 100 million citizens will transform everything from community life and employment to technology and renewable energies. Reprint. **Sand Opera** "Sand Opera emerges from the dizzying position of being named but unheard as an Arab American, and out of the parallel sense of seeing Arabs named and silenced since 9/11. Polyvocal poems, arias, and redacted text speak for the unheard. Metres exposes our common humanity, while investigating the dehumanizing perils of war and its lasting effect on our culture"-- **A Detroit Anthology** Belt Publishing A unique perspective of the Motor City, this anthology combines stories told by both longtime residents and newcomers from activists to teachers to artists to students. While Detroit has always been rich in stories, too often those stories are told back to the city by outsiders looking in, believing they can explain Detroit back to itself. As editor, Anna Clark writes in the introduction, "These are the stories we tell each other over late nights at the pub and long afternoons on the porch. We share them in coffee shops, at church social hours, in living rooms, and while waiting for the bus. These are stories full of nodding asides and knowing laughs. These are stories addressed to the rhetorical "you"--with the ratcheted up language that comes with it--and these are stories that took real legwork to investigate . . . You will not find 'positive' stories about Detroit in this collection, or 'negative' ones. But you will find

true stories." Featuring essays, photographs, art, and poetry by Grace Lee Boggs, John Carlisle, Desiree Cooper, Dream Hampton, Steve Hughes, Jamaal May, Tracie McMillan, Marsha Music, Shaka Senghor, Thomas J. Sugrue, and many others. **The Boy Governor Stevens T.
