KEY=UK - MARLEY CALLAHAN

Financial Accounting An International Introduction "Accounting began as a practical activity in response to perceived needs. It has progressed in the same way, adapting to meet changes in the demands made on it. Where the needs differed in different countries, accounting developed in different ways, essentially on the Darwinian principle: useful accounting survived"-- **Financial Accounting An Introduction** *Pearson UK* Students studying accounting for MBA and postgraduate courses, and professional courses where accounting is introduced for the first time. Visit www.pearsoned.co.uk/weetman for a suite of resources to accompany this textbook, including: A companion website for students, containing multiple choice questions to enable you to test your knowledge A complete solutions guide for lecturers PowerPoint slides for each chapter for lecturers. **International Financial Reporting** *Pearson UK* 'International Financial Reporting' delivers a focused, user-friendly introduction to international financial reporting and how to implement the IASB standards for undergraduate students. With more than 140 countries in the world now using international financial reporting standards (IFRSr Standards), knowledge of the standards issued by the International Accounting Standards Board (IASBr) is vital to students' success in financial accounting. Melville's International Financial Reporting employs a practical, applied approach in exploring and explaining the key international standards. With a focus on how to implement the standards, this text delivers a focused, user-friendly introduction to international financial reporting. Renowned for clear and concise language, this seventh edition brings the book completely up-to-date with international standards issued as of 1 January 2019. **Financial Accounting and Reporting** Providing students with the skills to prepare and analyze company-only and consolidated financial statements, this book also looks at the theory behind asset valuation and income determination, and encourages students to develop an awareness of the limitations of conventional financial statements. teaching and learning aids, such as discussion questions, reference to source material, further reading suggestions and worked examples. It is designed for undergraduate 2nd year financial accounting courses, 2nd/3rd year undergraduate business courses, and 1st year MBA/DMS courses. **Financial Accounting and Reporting 2 Financial Reporting for Unlisted Companies in the UK and Republic of Ireland** *Bloomsbury Publishing* This important title guides practitioners through their first implementation of FRs, 100, 101 and 102. Under these standards, introduced in early 2013, many small to medium sized businesses will be preparing their financial statements under a fundamentally set of rules as the current UK GAAP framework will be withdrawn when the new standards take effect in 2015. The book focuses on explaining the key areas of change for practitioners to focus on and clear guidance on how the new standards should be implemented. This is backed up with extensive examples, sample policy wordings and the use of sample disclosures in each chapter. Unlike some other publications, this title focuses specifically on the areas financial reporting most likely to be encountered by companies who can be classified as falling within the scope of the new standard. Readers will benefit from the approach taken by the authors who have years of combined experience writing for and training in this market. Contents includes- Introduction and Basic Concepts; Financial Statements; Accounting for Assets; Accounting for Liabilities; Accounting for Revenue and Equity; Consolidations; Financial Instruments; Disclosures. **Financial and Management Accounting** *Pearson UK* This eighth edition retains all of the classic features that have contributed to the book's success: clarity of expression, the focus on the accounting equation, student activities and real-life commentaries running through each chapter, and the inclusion of the Safe and Sure Annual Report as an example of a listed company. Written by an expert teacher in Accounting, the eighth edition of this well-respected text retains all the features that have contributed to the book's popularity: focus on the accounting equation, an even greater range of student activities throughout each chapter, a clear and accessible writing style, and extensive use of real-world case studies. With a strong emphasis on the 2018 Conceptual Framework of the International Accounting Standards Board, **Financial & Management Accounting: An Introduction** guides students in understanding the `why' and not just the `what' of financial and management accounting. Key features: Definitions and terminology are aligned with the 2018 IASB Conceptual Framework Fully up-to-date with the International Financial Reporting Standards (IFRS) New case studies giving examples from real-world companies Activities aligned to each section of a chapter to encourage students to explore and consider issues from different angles Expanded for this edition, experience-driven conversations between two managers are included throughout, updated with an even more practical emphasis Coverage on fair value throughout Exploration of the Strategic Report and Directors' Report Focuses on specific knowledge outcomes, with end-of-chapter self-evaluation Questions are graded according to difficulty to test student understanding Financial &

Management Accounting: An Introduction is a core textbook for undergraduates on Business Studies degrees, undergraduates on Accounting courses, students studying accounting for MBA and postgraduate courses, and professional courses where accounting is introduced for the first time. Visit www.pearsoned.co.uk/weetman for a suite of resources to accompany this textbook, including: A companion website for students, containing multiple choice questions to enable you to test your knowledge A complete solutions guide for lecturers PowerPoint slides for each chapter for lecturers. **Financial Accounting E-book An International Introduction** Financial Accounting is the ideal introductory book to anyone with little prior knowledge or new to this subject area. Its clear writing style and unique international focus builds on the success of the previous editions. This fully updated text uses the International Financial Reporting Standards (IFRS) as its framework to explain key concepts and practices while linking them with contemporary and real world examples from Europe, US and beyond. **Financial Management and Accounting in the Public Sector** *Routledge* The impact of the global financial crisis on government funds has been significant, with squeezed budgets having to satisfy ever-increasing demands for public services. Managers working in the public sector are confronted daily with targets and demands that are often set in confusing accounting and financial language. In **Financial Management and Accounting in the Public Sector**, Gary Bandy employs a clear and concise narrative to introduce the core concepts of accounting and financial management in the public sector and how to deliver services that represent value for money. This second edition has been revised and updated throughout, offering: an increased focus on post-crisis austerity more international examples of public financial management greater coverage of governance, accountability and risk management With a glossary of terms to help managers understand and be understood by accountants, as well as learning objectives, case studies and discussion questions, this practical textbook will help students of public management and administration to understand the financial and accounting aspects of managing public services. **Frank Wood's Business Accounting** *Pearson UK* Frank Wood's **Business Accounting Volume 1**, the world's bestselling textbook on book-keeping and accounting, continues to provide an indispensable introduction for students and professionals across the globe. Now celebrating more than 50 years in publication, the 14th edition has retained all the essence of what makes this the go-to textbook for accounting and book-keeping, but has also undergone significant changes and revisions based on reviewer feedback. With the inclusion of brand new chapters such as 'Maths for Accounting', combined with the reorganisation of chapters, and revision of end-of-chapter questions, this book will provide all the support you will need for learning key accounting topics. New to this Edition · Maths for Accounting chapter · Part 6 'Checks and Errors' · Incorporation of new end-of-chapter questions · Accounting Today chapter For lecturers, visit www.pearsoned.co.uk/wood for our suite of resources to accompany this textbook, including: · A complete solutions guide · PowerPoint slides for each chapter · Seven online chapters for further reading MyLab Accounting Join over 10 million students benefiting from Pearson MyLabs. This title can be supported by MyLab Accounting, an online homework and tutorial system designed to test and build your understanding. Alan Sangster is Professor of Accounting at the University of Sussex and formerly at other universities in the UK, Brazil, and Australia. Lewis Gordon is Lecturer in Accounting at the University of Liverpool, and has extensive experience of teaching financial accounting at undergraduate and professional levels. Frank Wood formerly authored this text and he remains one of the best-selling authors of accounting textbooks. **Issues in Financial Accounting** *Pearson Higher Education AU* **Issues in Financial Accounting** addresses the controversial issues in financial accounting that have been debated by the preparers, users, auditors and regulators of financial statements. Henderson provides the best balance of technical and theoretical coverage in any Financial Accounting text on the market today, with its presentation of real-world examples, current debates and the underlying rationale for the accounting concepts demonstrated. Throughout the text, academic studies and professional accounting research are referenced to also provide a critical understanding of historical debates in financial accounting. The new 15th edition covers significant recent developments to the accounting standards in Australia and is based on the AASB standards and interpretations that have been issued up to the end of 2012. This includes the Australian Accounting Standard Board's (AASB) program of changes to make accounting standards equivalent to International Financial Reporting Standards. **ACCOUNTING FOR NON-ACCOUNTING STUDENTS 10TH EDITION** *Pearson UK* For undergraduate and graduate Accounting courses, as part of non-Accounting programmes. Simplified learning of real-world accounting problems **Accounting for Non-Accounting Students, 10th Edition**, by Dyson & Franklin provides real-life understanding of accounting by introducing the purpose and key ideas of financial and management accounting to students who have had little or no previous knowledge of the subject. This textbook is renowned for its clear and non-technical explanations of essential accounting techniques, in a language accessible to all. It engages with students to help them cross. **Financial Accounting and Reporting** *Pearson UK* **Financial Accounting & Reporting** is the book that helps students and professionals succeed in their studies and the workplace by providing practical support and clear principles for applying international standards and preparing financial statements. MyLab Accounting is not included. Students, if MyLab Accounting is a recommended/mandatory component of the course, please ask your instructor for the correct ISBN and course ID. MyLab Accounting should only be purchased when required by an instructor. Instructors, contact your Pearson representative for more information. **EBOOK: Financial Accounting and Reporting: An International Approach** *McGraw Hill* **Financial Accounting and Reporting: An International Approach** is an adaptation of McGraw-Hill Australia's bestselling financial accounting text **Australian Financial Accounting** by Craig Deegan, authored by Anne Marie Ward of Ulster University. Set within an international context, with a solid grounding in IAS/ IFRS, the book provides students with a detailed grasp of reporting requirements in an accessible and engaging manner. Up to date throughout and complete in theoretical and practical coverage, the book successfully communicates the detail necessary to understand, challenge and critically evaluate financial reporting. The result gives students a strong foundation for current study and their future professional lives. **Software Design and**

Development: Concepts, Methodologies, Tools, and Applications *IGI Global* Innovative tools and techniques for the development and design of software systems are essential to the problem solving and planning of software solutions. **Software Design and Development: Concepts, Methodologies, Tools, and Applications** brings together the best practices of theory and implementation in the development of software systems. This reference source is essential for researchers, engineers, practitioners, and scholars seeking the latest knowledge on the techniques, applications, and methodologies for the design and development of software systems. **The Routledge Companion to Financial Accounting Theory** *Routledge* Financial accounting theory has numerous practical applications and policy implications, for instance, international accounting standard setters are increasingly relying on theoretical accounting concepts in the creation of new standards; and corporate regulators are increasingly turning to various conceptual frameworks of accounting to guide regulation and the interpretation of accounting practices. The global financial crisis has also led to a new found appreciation of the social, economic and political importance of accounting concepts generally and corporate financial reporting in particular. For instance, the fundamentals of capital market theory (i.e. market efficiency) and measurement theory (i.e. fair value) have received widespread public and regulatory attention. This comprehensive, authoritative volume provides a prestige reference work which offers students, academics, regulators and practitioners a valuable resource containing the current scholarship and practice in the established field of financial accounting theory. **Social Accounting and Public Management Accountability for the Public Good** *Routledge* Social accounting as a discipline has challenged the methodology and focus of the larger field of accounting over the last 50 years. More recently it has taken on greater significance for other subjects as well, addressing issues for public policy and management more broadly. These include the issues of the nature of accountability in the contemporary plural state, environmental and societal sustainability, the ethical management and governance of public services and resources, and the creation and sustenance of social capital as an essential element of the modern plural state. **Social Accounting and Public Management** brings together for the first time researchers from a range of disciplines including accounting, political science, management, sociology and policy studies to discuss and develop our knowledge and theory of the nature of 'accountability' in contemporary global society and the challenges it may pose for public policy and management. This book addresses this nexus of all of these issues and disciplines, and through this, makes a contribution to the development of the disciplines of both social accounting and public policy and management. **A History of Corporate Financial Reporting in Britain** *Routledge* A History of Corporate Financial Reporting provides an understanding of the procedures and practices which constitute corporate financial reporting in Britain, at different points of time, and how and why those practices changed and became what they are now. Its particular focus is the external financial reporting practices of joint stock companies. This is worth knowing about given the widely held view that Britain (i) pioneered modern financial reporting, and (ii) played a primary role in the development of both capital markets and professional accountancy. The book makes use of a principal and agent framework to study accounting's past, but one where the failure of managers always to supply the information that users' desire is given full recognition. It is shown that corporate financial reporting did not develop into its current state in a straightforward and orderly fashion. Each era produces different environmental conditions and imposes new demands on accounting. A proper understanding of accounting developments therefore requires a careful examination of the interrelationship between accountants and accounting techniques on the one hand and, on the other, the social and economic context within which changes took place. The book's corporate coverage starts with the legendary East India Company, created in 1600, and continues through the heyday of the statutory trading companies founded to build Britain's canals (commencing in the 1770s) and railways (commencing c.1829) to focus, principally, on the limited liability company fashioned by the Joint Stock Companies Act 1844 and the Limited Liability Act 1855. The story terminates in 2005 when listed companies were required to prepare their consolidated accounts in accordance with International Financial Reporting Standards, thus signalling the effective end of British accounting. **Financial Accounting PDF eBook** *Pearson Higher Ed* **Financial Accounting An Introduction** Pauline Weetman seventh edition The seventh edition of this well-respected and fully updated text retains all of the features that have contributed to the book's popularity: focus on the accounting equation, student activities and real-life commentaries throughout each chapter, a clear and accessible writing style, and inclusion of real-world case studies. With a strong emphasis on the Conceptual Framework of the International Accounting Standards Board, **Financial Accounting: An Introduction** guides students in understanding the 'why' and not just the 'what' of financial accounting. **Key features:** New case studies containing examples from real-world companies New coverage on fair value throughout New coverage of the Strategic Report and Directors' Report Focuses on specific knowledge outcomes, with end-of-chapter self-evaluation Questions are graded according to difficulty to test student understanding Definitions and terminology is fully in-line with the revised IASB Conceptual Framework Experience-driven conversations between two managers are included throughout, providing a practical examination of real life scenarios **Financial Accounting: An Introduction** is aimed at first-level undergraduates on business studies degrees taking introductory financial accounting classes; first-level specialist accounting undergraduate students; introductory core accounting for MBA and postgraduate specialist Masters students, focusing on analysis through the accounting equation and a questioning approach to problem solving; and professional courses where accounting is introduced for the first time. "MyAccountingLab advert" Pauline Weetman BA, BSc (Econ), PhD, CA, FRSE, is Professor Emerita of Accounting at the University of Edinburgh, and has extensive experience of teaching at undergraduate and postgraduate level, with previous chairs held at Stirling, Heriot-Watt, Strathclyde and Glasgow Universities. She received the Distinguished Academic Award of the British Accounting Association in 2005. She has convened the examining board of the Institute of Chartered Accountants of Scotland and was formerly Director of Research at ICAS.

The organizations that can best build advantages in diverse environments achieve the greatest success. The **Handbook of Research on Global Competitive Advantage through Innovation and Entrepreneurship** explores the emergence of new ideas and opportunities in various markets and provides organizational leaders with the tools they need to take full advantage of those opportunities. With a focus on economic growth in a fast-paced environment, this handbook is a critical reference for business leaders, economists, and students of economic theory. **Adult and Continuing Education: Concepts, Methodologies, Tools, and Applications** *IGI Global* Beyond the undergraduate and graduate levels, education has traditionally ceased when students enter the workforce as professionals in their respective fields. However, recent trends in education have found that adult students beyond the traditional university age often benefit greatly from returning to further their education. **Adult and Continuing Education: Concepts, Methodologies, Tools, and Applications** investigates some of the most promising trends in furthering education and professional development in a variety of settings and industries. With an extensive array of chapters on topics ranging from non-traditional students to online and distance education for adult learners, this multi-volume reference book will provide students, educators, and industry professionals with the tools necessary to make the most of their return to the classroom. **Financial Accounting PDF ebook 6th Edition** *Pearson Higher Ed* 'This book will be welcomed by students and academics alike. The text is easy to read and well laid out, the case studies are very helpful, and it is supplemented by a good range of quality supporting material' Christopher Coles, Department of Accounting and Finance, University of Glasgow 'A hugely enjoyable and informative book with an international focus' Eleimon Gonis, University of the West of England, Bristol **Financial Accounting** is the ideal book for anyone with little prior knowledge or who is new to this subject area. The book retains the clear writing style and unique international focus which led to the success of previous editions. This

approach enables the teaching of financial accounting in a way that is not country-specific. This fully updated text uses the International Financial Reporting Standards (IFRS) as its framework to explain key concepts and practices while linking them with contemporary real-life examples from around the world. What's new! Fully updated to reflect the extensive changes that have occurred in the three years since writing the fifth edition; Expanded discussion of accounting by SMEs and partnerships (Chapter 4); New discussion on capital maintenance (Chapter 8); Added material on integrated reporting and sustainability (Chapter 6); Expanded discussion of revenue recognition, including reference to IFRS 15 (Chapter 8). The text is ideal for undergraduates and MBA students worldwide taking a first course in financial accounting. Visit www.pearsoned.co.uk/alexander to find valuable online resources for both students and lecturers, including an instructor's manual and full set of power point slides. David Alexander is Professor Emeritus of Accounting at the University of Birmingham Business School, England. Christopher Nobes is Professor of Accounting at Royal Holloway, University of London, England. He is also Professor at the University of Sydney, and Adjunct Professor at the Norwegian Business School. From 1993 to 2001 he was a member of the board of the International Accounting Standards Committee. *Comparative International Accounting, 14th Edition Pearson UK* Now in its 14th edition, Nobes and Parker's *Comparative International Accounting* is a comprehensive and coherent text on international financial reporting. It is primarily designed for undergraduate and postgraduate courses in comparative and international aspects of financial reporting. The book explores the conceptual and contextual found. *Intellectual Property, Finance and Corporate Governance Routledge* IP law has evolved from being a little pool to a big ocean. Corporate governance needs to respond to society's rising expectations of directors and boards as the impact of the global intellectual property ecosystem is felt. How can a responsible corporate culture of IP transparency be stimulated to create a rosy future to connect corporate communication with the desires of shareholders, investors and other stakeholders? The astonishing lack of material quantitative and qualitative information companies report about their IP assets makes it difficult for shareholders and other stakeholders to assess directors' stewardship of those assets - a pressing corporate governance issue in the 21st century. This book advances IP reporting in alignment with the key corporate governance principles of transparency and disclosure. It analyses the juncture between the IP ecosystem; corporate finance and accounting for intangibles; and corporate governance. Patents, mini-case studies and an original business triage style model for assessing IP disclosures are used to illustrate the gaps corporate governance theory needs to address. Focussing on the common law tradition of corporate governance in England and Wales, intangibles and IP reporting developments in other jurisdictions are also explored. *Open Government: Concepts, Methodologies, Tools, and Applications IGI Global* Open government initiatives have become a defining goal for public administrators around the world. As technology and social media tools become more integrated into society, they provide important frameworks for online government and community collaboration. However, progress is still necessary to create a method of evaluation for online governing systems for effective political management worldwide. *Open Government: Concepts, Methodologies, Tools, and Applications* is a vital reference source that explores the use of open government initiatives and systems in the executive, legislative, and judiciary sectors. It also examines the use of technology in creating a more affordable, participatory, and transparent public-sector management models for greater citizen and community involvement in public affairs. Highlighting a range of topics such as data transparency, collaborative governance, and bureaucratic secrecy, this multi-volume book is ideally designed for government officials, leaders, practitioners, policymakers, researchers, and academicians seeking current research on open government initiatives. *Business Accounting Bloomsbury Publishing* This textbook provides an accessible introduction to accounting, giving a clear and concise overview of financial accounting, management accounting and financial management. Using international examples, cases and real company data to contextualise the theory, the authors explain the key concepts in a logical fashion, providing students with a theoretical and practical foundation in the subject. In particular, the running case study helps students to keep applying new concepts to a familiar context. The main author, Jill Collis, is an experienced author who has a proven ability to simplify difficult topics and communicate them in a clear and engaging way. This textbook has been developed specifically to provide a comprehensive introduction to accounting for anybody coming to the subject for the first time, either at undergraduate or postgraduate level. **New to this Edition:** - The important and contemporary topics of ethics, corporate governance and corporate social responsibility are given more prominence in this new edition - A new chapter on the statement of cash flows has been added - The number of questions in the book and online has been increased substantially to provide students with more opportunity to test their understanding and provide lecturers with more materials to perform assessments **Accompanying online resources for this title can be found at bloomsburyonlineresources.com/business-accounting-3e. These resources are designed to support teaching and learning when using this textbook and are available at no extra cost.** *The International Journal of Accounting TIJA International Financial Reporting 5th edn A Practical Guide Pearson Higher Ed* **INTERNATIONAL FINANCIAL REPORTING: A Practical Guide** "If the accounting student was only to purchase one textbook in their student lives then it should without a doubt be Melville's *International Financial Reporting*" Raymond Holly, Galway-Mayo Institute of Technology (Ireland) With more than 120 countries in the world now using international financial reporting standards (IFRS), knowledge of the standards issued by the International Accounting Standards Board (IASB) is vital to students' success in financial accounting. *Melville's International Financial Reporting* employs a practical, applied approach in exploring and explaining the key international standards. With a focus on how to implement the standards, this text delivers a focused, user-friendly introduction to international financial reporting. Renowned for clear and concise language, this fifth edition brings the book completely up-to-date with international standards issued as of 1 January 2015. **Key features** Unique practical approach Class-tested by professional and degree students Worked examples with solutions in every chapter

Chapter-end exercises featuring questions from past exam papers of key professional accountancy bodies Visit www.pearsoned.co.uk/melville for our suite of resources to accompany this textbook, including a complete solutions guide, PowerPoint slides for each chapter and opportunities for extra practice. Alan Melville FCA BSc Cert Ed. is a best-selling author. Previously a Senior Lecturer at Nottingham Trent University, he has many years' experience of teaching accounting and financial reporting. *Financial Accounting, Reporting and Analysis International Edition Pearson Education* The authors provide a balanced and comprehensive framework to enable students internationally to acquire the requisite knowledge and skills to appraise current practice critically and to evaluate proposed changes from a theoretical base. *Financial Accounting and Reporting Pearson Education* This edition of 'Financial Accounting and Reporting' features chapters on foreign currency transactions and ethics for accountants. It addresses the theory and conceptual underpinnings of the topic in great depth. *CSR 2.0 and the New Era of Corporate Citizenship IGI Global* Responsible behaviors in the realm of business continue to remain a crucial component of organizational development. This book helps you learn from worked examples and case studies based on real student research, illustrating what to do and what not to do in your project. *The Oxford Handbook of Economic and Institutional Transparency Oxford Handbooks* 'Transparency' has become both a catch-word in public debate and also an important research topic. Comprised of authoritative yet accessible contributions, this Handbook surveys existing economic research on transparency and provides an up-to-date account of its meaning and significance in economic policy, market integration and regulation, and corporate governance and disclosure. *Understanding Sport Organizations Applications for Sport Managers Human Kinetics Publishers* Understanding Sport Organizations provides a strong foundation in organizational theory and organizational behavior and addresses how that theory is applied in a real-world context. It engages readers by providing opportunities to discover the theory in practice. *Multi Pack Financial Accounting: An International Introduction and Managerial Accounting for Business Decisions Financial Times/Prentice Hall Valuepack: Financial Accounting An International Introduction with Business Accounting Financial Times/Prentice Hall* *Interpreting Company Reports and Accounts Pearson Education* *Interpreting Company Reports and Accounts 9th Edition Geoffrey Holmes, Alan Sugden, Paul Gee* " That it is known as ' The Analysts Bible' says much about this book. It shows how to crunch the numbers and what to look for buried in the notes to the accounts and suggests how to read reports for the signs of business turning sour." "We still love it" 2004 Investors Chronicle " The book is wholly successful in its aim of providing a guide for 'anybody with a reasonably enquiring mind' on how to take to pieces a set of company reports." Financial Times "If I wanted to give my mother a book to help her make sense of company accounts I could hardly think of a better book. For business people or potential investors ... I would say this book is ideal." Michael Thompson: University of Ulster *Interpreting Company Reports and Accounts* guides the reader through the conventions and complexities of company accounts, explaining how to assess the financial and trading position of a company from year to year, how to spot undue risk taking and "cosmetic accounting" and where to look for clues on the quality of management. Packed with interesting real world examples, this is a highly practical book which shows readers how to analyse company reports and accounts, both qualitatively and quantitatively. The analysis is illustrated with over 200 extracts/examples from published accounts, ranging from BP and DIAGEO down to smaller companies on AIM. Key Features · Key points from company accounts are highlighted and explained throughout the book. · Chapter 31: Putting it all Together takes readers step-by-step through the reports, accounts and press cuttings of an interesting AIM company. · The authors comment as well as inform - previous editions highlighted the serious weaknesses of both Polly Peck and Maxwell Communications Corporation well ahead of their collapse. · Very well written, engages students and brings the subject to life. New Features · A chapter detailing the differences between International and UK accounting standards, and how the ASB plans to close the gap. · New chapter on 'Accounting Practices -- Cause for Concern?' · A critique on Corporate Governance. *Interpreting Company Reports and Accounts* is suitable for intermediate/advanced undergraduate accounting and finance courses and for MBA courses. The book is recommended reading for several professional examinations and will also be relevant to practitioners. Geoffrey Holmes FCA, FTII was, for more than twenty years, the highly regarded and much respected Editor of Accountancy, the Journal of the Institute of Chartered Accountants. Alan Sugden is a Sloan Fellow of the London Business School and a retired director of Schroder Investment Management. He spent nearly 20 years in the City as an Analyst and fund manager, running the £100 million Schroder Recovery Fund for several years. Paul Gee BA (Econ) FCA is Technical Director of Bristol based accountants Solomon Hare, and lectures widely in the UK on financial reporting.
