**SOPHIE'S WORLD**

---

Hachette UK The international bestseller about life, the universe and everything. When 14-year-old Sophie encounters a mysterious mentor who introduces her to philosophy, mysteries deepen in her own life. Why does she keep getting postcards addressed to another girl? Who is the other girl? And who, for that matter, is Sophie herself? To solve the riddle, she uses her new knowledge of philosophy, but the truth is far stranger than she could have imagined. A phenomenal worldwide bestseller, SOPHIE'S WORLD sets out to draw teenagers into the world of Socrates, Descartes, Spinoza, Hegel and all the great philosophers. A brilliantly original and fascinating story with many twists and turns, it raises profound questions about the meaning of life and the origin of the universe.

---

## **HOW THE POLITICS OF LITERACY SHAPE THINKING IN THE CLASSROOM**

---

**Jossey-Bass** As a result of his visits to classrooms across the nation, Brown has compiled an engaging, thought-provoking collection of classroom vignettes which show the ways in which national, state, and local school politics translate into changed classroom practices. "Captures the breadth, depth, and urgency of education reform".--Bill Clinton.

---

## **BUILT TO LAST**

---

## **SUCCESSFUL HABITS OF VISIONARY COMPANIES**

---

**Harper Collins** Drawing upon a six-year research project at the Stanford University Graduate School of Business, James C. Collins and Jerry I. Porras took eighteen truly exceptional and long-lasting companies and studied each in direct comparison to one of its top competitors. They examined the companies from their very beginnings to the present day -- as start-ups, as midsize companies, and as large corporations. Throughout, the authors asked: "What makes the

truly exceptional companies different from the comparison companies and what were the common practices these enduringly great companies followed throughout their history?" Filled with hundreds of specific examples and organized into a coherent framework of practical concepts that can be applied by managers and entrepreneurs at all levels, Built to Last provides a master blueprint for building organizations that will prosper long into the 21st century and beyond.

## **MINDSET MATHEMATICS**

---

---

## **VISUALIZING AND INVESTIGATING BIG IDEAS, GRADE 4**

---

John Wiley & Sons Engage students in mathematics using growth mindset techniques The most challenging parts of teaching mathematics are engaging students and helping them understand the connections between mathematics concepts. In this volume, you'll find a collection of low floor, high ceiling tasks that will help you do just that, by looking at the big ideas at the first-grade level through visualization, play, and investigation. During their work with tens of thousands of teachers, authors Jo Boaler, Jen Munson, and Cathy Williams heard the same message—that they want to incorporate more brain science into their math instruction, but they need guidance in the techniques that work best to get across the concepts they needed to teach. So the authors designed Mindset Mathematics around the principle of active student engagement, with tasks that reflect the latest brain science on learning. Open, creative, and

visual math tasks have been shown to improve student test scores, and more importantly change their relationship with mathematics and start believing in their own potential. The tasks in Mindset Mathematics reflect the lessons from brain science that: There is no such thing as a math person - anyone can learn mathematics to high levels. Mistakes, struggle and challenge are the most important times for brain growth. Speed is unimportant in mathematics. Mathematics is a visual and beautiful subject, and our brains want to think visually about mathematics. With engaging questions, open-ended tasks, and four-color visuals that will help kids get excited about mathematics, Mindset Mathematics is organized around nine big ideas which emphasize the connections within the Common Core State Standards (CCSS) and can be used with any current curriculum.

---

## **SAVIOURS OF ISLAMIC SPIRIT**

---

---

## **THE TEN GRANTED PARADISE**

---

**Universal Muslim Association of America** Dr. Nakshawani in the following work not only corrects the widespread misconception that the Shi'i intellectual tradition despises and curses all Companions, but also clarifies the reason for which some Companions were considered people of Paradise in the Shi'i (and usually the Sunni) tradition. In a few places, the author notes reasons for which the Shi'i tradition does not venerate certain Companions. Discussing controversial history as it relates to Companions and the ahl al-bayt remains a difficult enterprise, where methods and premises, let alone conclusions, substantially differ from scholar to scholar. As an expert of the Shi'i tradition, Dr. Nakshawani presents relevant Shi'i narratives for non-specialists who would otherwise be unaware of them. Thus, the following biographies fill a gap in knowledge about Companions not only revered in the Shi'i tradition, but according to the collective memory of pro-Alid Sunni and Shi'i authors, granted Paradise.

---

---

---

---

## **FORM AND MEANING IN ORAL HISTORY**

---

---

State University of New York Press Portelli offers a new and challenging approach to oral history, with an interdisciplinary and multicultural perspective. Examining cultural conflict and communication between social groups and classes in industrial societies, he identifies the way individuals strive to create memories in order to make sense of their lives, and evaluates the impact of the fieldwork experience on the consciousness of the researcher. By recovering the value of the story-telling experience, Portelli's work makes delightful reading for the specialist and non-specialist alike. Alessandro Portelli is Professor of American Literature at the University of Rome "La Sapienza."
